# /n software Red Carpet Subscription

A comprehensive suite of Internet components. Any protocol, any platform, any IDE.

Publisher: /n software | Category: Communication & Messaging | ★★★★★

Components for every major protocol from FTP to IMAP to SNMP, SSL and SSH security, S/MIME encryption, Digital Certificates, Credit Card Processing, ZIP compression, Shipping and Tracking, and e-business (EDI) transactions.

## Internet E-Commerce

Add secure and reliable Internet payment processing to your applications. Includes components for Credit Card and Electronic Check (ACH) processing via major Internet payment gateways.

## Encrypt/Decrypt Files and Emails

Easily implement strong encryption via major cryptographic standards. Features include encryption & decryption, secure message hashing, signing & signature verification and digital certificate generation.

## Secure SSH Connectivity

Easily integrate Secure Shell (SSH) security into your Internet applications. IP\*Works! SSH includes SSH-enabled client, server and proxy components that support strong SSH encryption and advanced cryptography.

Prices from £ 1,102.00

# Aspose.Total for .NET

Open, create, convert, print & save files from within your own applications.

Publisher: Aspose | Category: Document & Text Processing | ★★★★★

Aspose.Total for .NET is a compilation of every .NET component offered by Aspose. It allows you to create a wide range of applications that work with file formats from Excel, Word, PowerPoint, Project, OneNote, Outlook, Visio and PDF.

## Aspose.Words for .NET

An advanced class library that lets you perform a wide range of document processing tasks directly within your applications. Supports DOC, OOXML, RTF, HTML, OpenDocument, PDF, XPS, EPUB and many other formats.

## Aspose.PDF for .NET

Enable your apps to read, write and manipulate existing PDF documents without using Adobe Acrobat. It also allows you to create forms and manage form fields embedded in a PDF document.

## Aspose.Cells for .NET

Enable .NET applications to create, modify, convert, render and print Excel spreadsheets without Microsoft Excel installed on the server. Supports XLS, XLSX, XLSTM, XLTX/XLTM, HTML, CSV, ODS, PDF and more.

Prices from £ 2,131.00

[www.componentsource.com/aspose-total-net](http://www.componentsource.com/aspose-total-net)

# File Format APIs

Open, Create, Convert, Print and Save  
files from your applications!

[componentsource.com/aspose](https://componentsource.com/aspose)

## Aspose.Words

Create, edit, convert or print  
Word documents (DOC, DOCX,  
RTF...)

## Aspose.Cells

Create, edit or convert Excel  
worksheets (XLS, XLSX, ODS...)

## Aspose.PDF

Manipulate PDF file formats  
(PDF, PDF/A, XPS...)

## Aspose.Slides

Create, edit or convert  
PowerPoint presentations (PPT,  
PPTX, ODP...)

## Aspose.Email

Manipulate Email file formats  
(MSG, PST, EML...) and popular  
network protocols

## Aspose.BarCode

Generate or recognize barcodes  
(Code128, PDF417, Postnet...)

► Aspose.Imaging ► Aspose.Tasks ► Aspose.OCR ► Aspose.Diagram ► Aspose.Note ► Aspose.HTML

Publisher: Aspose | Category: Spreadsheet | ★★★★★

The screenshot shows an Excel spreadsheet titled "EmployeeSalesByCountry - OpenWorkBookCalc". The spreadsheet is divided into three sheets: "EmployeeSalesByCountry", "EmployeeSalesByCountry - PivotTable", and "EmployeeSalesByCountry - PivotTable2". The "EmployeeSalesByCountry" sheet is active and displays a table with the following data:

Order ID	Sales Amount	Salesperson's Name	Country
10001	\$1,000.00	John Doe	United States
10002	\$2,000.00	John Doe	United States
10003	\$3,000.00	John Doe	United States
10004	\$4,000.00	John Doe	United States
10005	\$5,000.00	John Doe	United States
10006	\$6,000.00	John Doe	United States
10007	\$7,000.00	John Doe	United States
10008	\$8,000.00	John Doe	United States
10009	\$9,000.00	John Doe	United States
10010	\$10,000.00	John Doe	United States
10011	\$11,000.00	John Doe	United States
10012	\$12,000.00	John Doe	United States
10013	\$13,000.00	John Doe	United States
10014	\$14,000.00	John Doe	United States
10015	\$15,000.00	John Doe	United States
10016	\$16,000.00	John Doe	United States
10017	\$17,000.00	John Doe	United States
10018	\$18,000.00	John Doe	United States
10019	\$19,000.00	John Doe	United States
10020	\$20,000.00	John Doe	United States

The spreadsheet is divided into three sheets: "EmployeeSalesByCountry", "EmployeeSalesByCountry - PivotTable", and "EmployeeSalesByCountry - PivotTable2". The "EmployeeSalesByCountry" sheet is active and displays a table with the following data:

Save and open Excel files to and from streams, send generated output to client browsers and easily import formulas, images and charts from spreadsheets.

# Manipulating Documents?

APIs to view, convert, annotate, compare, sign, assemble and search documents in your applications.

[componentsource.com/groupdocs](https://componentsource.com/groupdocs)

## GroupDocs.Viewer

View over 50 documents and image formats in any application using document viewer APIs.

## GroupDocs.Annotation

Add annotations to specific words, phrases and any region of the document.

## GroupDocs.Conversion

Fast batch document conversion APIs for any .NET, Java or Cloud application.

## GroupDocs.Comparison

Compare two documents and get a difference summary report.

## GroupDocs.Signature

Digitally sign Microsoft Word, Excel, PowerPoint and PDF documents.

## GroupDocs.Assembly

Document automation APIs to create reports from templates and various data sources.

# CData ODBC Driver Subscription

Connecting to data has never been easier.

Publisher: CData Software | Category: Data Access

CData ODBC Driver Subscription gives you access to live SaaS Apps, NoSQL, and Big Data from desktop clients through standard ODBC connectivity.

## Connect to Live Data

The drivers include a library of 50+ functions, including String, Date and Numeric that can manipulate column values into the desired result. Popular examples include Regex, JSON, and XML processing functions.

## Connect from Office Tools

Any application that can access data through ODBC, like Microsoft Excel, PowerPivot, or Word, can leverage the ODBC Drivers to connect to real-time data and help you with powerful capabilities like mail merge.

## Read & Write Data through ODBC

CData ODBC Driver Subscription includes 75+ data sources including Apache HBase, Azure Table, Gmail, Google Sheets, MailChimp, Microsoft Dynamics, SharePoint, SQLite, Sugar CRM, and YouTube Analytics.

Prices from £ 278.00

[www.componentsource.com/cdata-odbc-driver-subscription](http://www.componentsource.com/cdata-odbc-driver-subscription)

# Know SQL?

Connect to 80+ data sources (NoSQL, Big Data, SaaS, etc.) through standard SQL queries.

ODBC

JDBC

ADO.NET

SSIS

CLOUD

BIZTALK

EXCEL

MOBILE

SQL is the language of data, and our state-of-the-art Drivers let you leverage the full power of SQL to connect with hundreds of applications, databases, and APIs. Through standards-compliant Driver technologies like ODBC, JDBC, ADO.NET, & OData, you can read, write, and update live data, from any data source, using standard SQL queries.

# DevExpress Universal

All DevExpress Visual Studio products in one integrated subscription.

Publisher: DevExpress | Category: Presentation Layer | ★★★★★

Includes charts, data grids, spreadsheets, calendars, schedulers, diagrams, navigation, text editors, PDF, maps, gauges, tiles and data editors. Supports ASP.NET WebForms & MVC, WinForms, WPF, Windows 10 and HTML5/JS.

## Desktop UI Controls

Leverage your existing WinForms and WPF investments, and build solutions that are fully optimized for the desktop, high-DPI monitors, and touch-first Windows devices.

## Reporting & Analytics

Create high-performance decision support systems and analytics dashboards across platforms and devices with a fully integrated suite of UI controls, reporting tools and dashboards.

## Web UI Controls

Deliver best-of-breed user experiences and emulate the UI of today's most popular web based business productivity apps with DevExpress components for ASP.NET, MVC, Angular, and React.

Prices from £ 1,532.00

[www.componentsource.com/devexpress-universal](http://www.componentsource.com/devexpress-universal)

# Dashboards & Analytics

DevExpress Universal ships with everything you'll need to create information-rich decision support systems and to distribute your dashboard solutions royalty-free.

## Your Next Great Dashboard Starts Here

Learn how you can create fully customizable Dashboards with our flexible data visualization tools.

[componentsource.com/devexpress-universal](http://componentsource.com/devexpress-universal)

High-performance HTML5/JavaScript Widgets for next-generation app development.

Publisher: DevExpress | Category: Presentation Layer | ★★★★★

Use your familiarity with JavaScript and the Visual Studio IDE to build store ready apps that run across iOS, Android, and Windows Phone. Includes grids, charts, treelist, maps, forms, scheduler and more.

## Charting and Pivot Grid

Transform data into its most concise and readable visual representation. DevExtreme Analytics widgets ship with a fully optimized client side data engine so you can build solutions that meet and exceeds end-user performance expectations.

## Scheduling and Navigation

The DevExtreme Scheduling widget ships with four pre-built views (Day, Week, Work Week and Month). Your users can quickly switch between each view via its integrated calendar view selector.

## Grids, Trees and Editors

The blazing-fast DevExtreme Data Grid is a feature-rich data shaping and editing client-side widget which allows your end users to easily manage information and display it on-screen as business requirements dictate.

# Reporting Made Easy

Inform and analyze with absolute ease. DevExpress Reporting includes an enterprise-ready reporting platform with integrated Windows & Web report designers.

Select from 300+ extensible controls with easy-to-use universal API

Improve your apps with the industry's best grids, charts, and reports

Reduce app bloat with the small footprint

Take advantage of the global support and community

Distribute apps royalty-free

SpreadJS includes powerful JavaScript spreadsheet and grid components that developers can use to create data views, numerical models, forms, dashboards, and reports for the Web.

## Data Display and Visualization

SpreadJS includes sparklines that allow you to quickly and professionally summarize data trends. You can also show performance indicators, data bars, color scales, and more with conditional formatting support.

# JavaScript Spreadsheet

Display and manage data much like Microsoft Excel with features such as formula engine, sorting, filtering, input controls, sparklines, and native Excel file import and export. SpreadJS is optimized for speed.

## Function & Calculation Engine

Choose from over 460 built-in functions and apply them to individual cells, rows/columns, or entire sheets. You can also easily add an Excel-like formula text box to your sheets.

# Develop and design complete spreadsheets for .NET and JavaScript

Use for spreadsheets, charts, input forms, and interactive dashboards

Generate Excel documents with the fastest spreadsheet API available

Create Excel-like interactive data views and forms

Build apps for risk analysis, financial models, budgeting, and business performance

Work with 462 Excel functions, the most available

# Infragistics Ultimate

UX & UI tools built to accelerate the application design & development process.

Publisher: Infragistics | Category: Presentation Layer

Hundreds of UI controls including charts, grids and MS Office-compatible frameworks. Supports ASP.NET & MVC, JavaScript, Windows Forms, WPF, Xamarin, Android and iOS. Also includes prototyping, usability testing and data visualization tools.

## Code-free Prototyping

Indigo Studio empowers designers, developers, product managers and users to quickly and collaboratively create and test realistic prototypes - before the first line of code is written.

## Modern Web on Any Device

A HTML and JavaScript toolkit that helps you build modern browser experiences on the desktop, tablet or phone. Create responsive apps with AngularJS directives, Angular Components and Bootstrap support.

## Develop

UX & UI tools built to accelerate the application development process for desktop, Web, mobile & hybrid apps. Ultimate now includes ReportPlus Embedded, allowing you to add powerful analytics to your next app.

Prices from £ 1,606.00

# Infragistics Ignite UI for Angular

30+ Material-based Angular components to help you build Web apps faster.

Publisher: Infragistics | Category: Presentation Layer

Includes Angular grids, lists, data entry, data display, layouts, notifications, menus and scheduling components - designed and optimized for high-performance, high-volume data scenarios.

## Layout Manager

The Ignite UI for Angular Layout Directive allows developers to specify a layout direction for any children of the container it is applied to. Layout can flow vertically or horizontally, with controls for wrapping, justification, and alignment.

## Native Angular Calendar

The Ignite UI for Angular Calendar component provides your application with three easy and intuitive ways to display date information. Users can select a single date, multiple dates or pick a range of dates.

## Flexible Angular Grid

Features include filtering, sorting, paging, templates, movable columns, and the ability to edit and update data. User actions are easy to understand and can be controlled programmatically.

Prices from £ 558.00

# Infragistics Professional

Build functional and stylish Enterprise-ready applications.

Publisher: Infragistics | Category: Presentation Layer | ★★★★★

Get performance, ease of use, and styling with a powerful suite of UI components that allows you to develop across all browsers, devices, and platforms. Contains hundreds of UI controls, including grids, charts, maps and MS Office-compatible frameworks.

ANGULAR ANGULARJS Knockout React Bootstrap

## JavaScript/HTML5 & ASP.NET MVC

Build high-performing, responsive Web applications in JavaScript/HTML5 for Angular and React frameworks. Get a jump-start on the most demanding Web applications with ASP.NET MVC server-side wrappers.

## Touch-friendly WPF Controls

Bring modern, engaging apps for desktop and touch-screen devices to market while shortening development time. Includes fast data grids, charts, dynamic data visualization, scheduling, styling and themes.

## Native Mobile Controls

Infragistics mobile iOS and Android controls have everything you need to build highly visual, totally native apps. The controls are lightweight, feature rich, responsive, and provide superior versatility.

Prices from £ 1,204.00

[www.componentsource.com/infragistics-professional](http://www.componentsource.com/infragistics-professional)

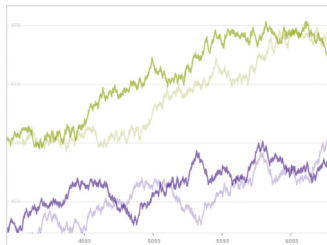

# InfraGistics Ultimate UI for Xamarin

Create fast, beautiful, cross-platform mobile apps.

Publisher: InfraGistics | Category: Presentation Layer

Includes 45+ native controls for Xamarin.iOS, Xamarin.Android, and Xamarin.Forms that enable code-sharing and incredible performance. Includes grids, business charts (bar, column, pie, area), financial and sparkline charts, gauges and more.

## Fast Performance

Rapid data visualization delivers powerful performance with even the largest real-time streaming datasets. Visualize hundreds of thousands of data points, without sacrificing quality or frame rate.

## Time-Saving Productivity Pack

Includes Xamarin Productivity Pack with control configurators, AppMap, and NuGet-powered Xamarin.Forms Toolbox. Streamline your coding so you can focus on innovating and solving business problems.

## Animated Transitions

Choose from 18 different animated transitions based on the movement and direction of animated data points. Transitions include accordion, expansion from value midpoints, zero value, sweep from side and more.

Query for social network credentials at any time while your setup is running on end-user systems. Tweet on Twitter and Share on Facebook, before continuing with your installation.

# NEW

## InstallAware X7

New Install**Aware** X7 includes an Open Source Desktop Bridge! WiX users rejoice, you may finally cross Microsoft's Desktop Bridge toll-free to the Universal Windows Platform highway!

InstallAware

### SUITE INSTALLER WIZARD

Bind multiple MSI/EXE setups to features in a merged installer.

### DOWNLOAD AND RUN WIZARD

Download a file from the Internet and run it on the target PC.

### WINDOWS FEATURES/SERVER ROLES

Visually configure built-in operating system features.

### COMMAND LINE VM TESTING

100% automated QA with scripted virtual machine unit tests.

### RUN VBSCRIPT

Call COM objects, enrich setups with millions of free online scripts.

Install**Aware** is the most flexible platform for traditional and agile development teams creating Windows and Azure software installers, as well as APPX Universal Windows Platform, Microsoft App-V Virtualization, and agentless/royalty-free Install**Aware** Virtualization packages. InstallAware reaches 100% feature parity with Wise Installation System on a command for command basis in Install**Aware** version X7.

[www.componentsource.com/installaware](http://www.componentsource.com/installaware)

# InstallAware Studio

A powerful software installation solution for deploying products, patches and updates.

Publisher: InstallAware | Category: Release Automation & Management

Supports the latest technologies and provides the advantages of true Windows Installer rapid development productivity. Enables MSIcode scripting for rapid setup development without the steep learning curve of other setup solutions.

## Easy MSI Customization

InstallAware setups don't have any dependencies or require scripting runtimes. It is possible to completely customize your setup even if you're unfamiliar with Windows Installer.

## SHA 256 Code Signing

InstallAware applies a smart algorithm to determine whether files are going to be singly signed, doubly signed, or skipped. All signing happens automatically to comply with Microsoft's code signing standards.

## Faster, More Reliable Installs

Ships with a Native Code Setup Engine, a faster and more reliable alternative to Windows Installer. The Native Engine with InstantInstall Acceleration creates Windows Installers faster by an order of magnitude.

## About InstallAware

InstallAware Software, founded in 2003, is the leading Cloud Infrastructure Company with its laser sharp focus on bullet-proof enterprise software deployment. InstallAware has been recognized by multiple awards coming from Microsoft, SDTimes "Leader of the Software Development Industry", Visual Studio Magazine Reader's Choice, ComponentSource, WindowsITPro, among other recognition.

InstallAware X7 is available in a complimentary edition for all Visual Studio users and paid editions. For more information, visit <https://www.componentsource.com/installaware>

# Telerik DevCraft Complete

Quickly build modern, high-performance apps for any platform.

Publisher: Progress Telerik | Category: Presentation Layer

Build .NET and JavaScript apps with a sleek, fast and consistent UI across all web, desktop and mobile platforms. Includes mocking and reporting functionality, and Priority Support.

## Flexible Mocking Framework

Telerik JustMock makes it easier for you to create mock objects and set expectations independently of external dependencies like databases, web service calls, or proprietary code.

## .NET Reporting Made Easy

Telerik Reporting lets you create, view and export rich, beautiful, interactive and reusable reports – everything a lightweight and feature-complete reporting solution should do.

## Grid Export to Excel

The Kendo UI grid provides server-agnostic client Excel export functionality. You have the option to customize the rows/columns and cells of the exported file by intercepting the excelExport event.

# Modern UI Made Easy

Building a modern UI for Web, Desktop and Mobile apps has never been easier with our .NET, Kendo UI JavaScript and Productivity tools.

[www.componentsource.com/telerik](http://www.componentsource.com/telerik)

# Kendo UI

JavaScript, HTML5 UI widgets for responsive web and data visualization.

Publisher: Progress Telerik | Category: Presentation Layer

A complete JavaScript UI component library that includes 70+ customizable UI components and allows you to quickly build high quality, high performance responsive web apps using your framework of choice - jQuery, Angular, React or Vue.

## Eye-catching JS Charts

The Kendo UI Chart includes all commonly used chart types. Charts are completely rendered through JavaScript, so are server platform agnostic, and boost the performance of your app.

## Powerful HTML5 Scheduler

The Kendo UI Scheduler allows you to easily schedule, display and edit appointments. You can display day, week, month, timeline and agenda views.

A screenshot of the 'HTML5 Grid Widget' displaying a table of contact information. The table has columns for 'Contact Name', 'Contact Title', 'Company Name', and 'Country'. The data is grouped by 'Contact Title: Order Administrator'. The table includes entries for 'Christina Berglund' and 'Eren Orlan'. The interface includes a search bar at the top and a pagination bar at the bottom.

## HTML5/JS Grid Widget

Kendo UI's responsive and adaptive HTML5 grid widget offers over 100 features from filtering and sorting data, to advanced features like pagination and hierarchical data grouping.

# TX Text Control .NET for Windows Forms

Add Microsoft Word look and feel editing to your Windows Forms applications.

Publisher: Text Control | Category: Word Processing

TX Text Control .NET for Windows Forms is a royalty-free, fully programmable rich edit control that offers developers a broad range of word processing features in a reusable component for Visual Studio.

## Reporting and Mail Merge

Text Control combines the power of a programmable reporting tool and WYSIWYG word processor. Create mail merge and table reports, master-detail and sub-reports based on MS Word compatible report templates.

## Word Compatible File Formats

Modify MS Word documents or create Adobe PDF documents from your application. Supports a range of word processing formats (RTF, DOC, DOCX, HTML, XML, PDF) and image formats (GIF, PNG, JPG, BMP, WMF, EMF, TIF).

## Import Adobe PDF Documents

Import PDF documents, and view, edit or convert them. Imported PDFs can be modified just like any other format. The fully featured API can be used to change the content or to search on the document.

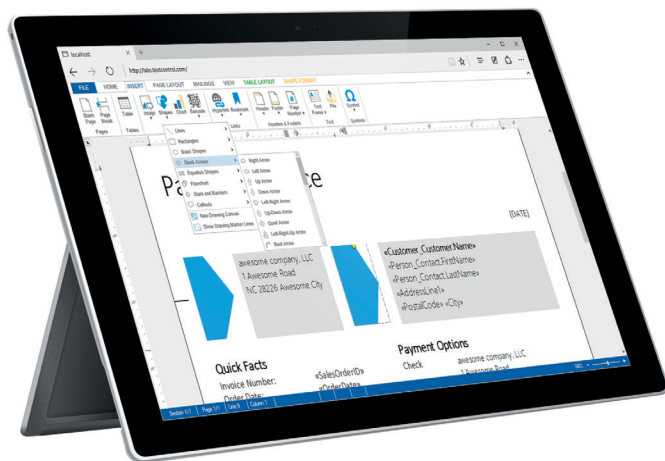

**TEXTCONTROL**

Prices from £ 1,012.00

[www.componentsource.com/tx-text-control-net-professional](http://www.componentsource.com/tx-text-control-net-professional)

# ALL ABOUT DOCUMENTS

Text Control provides deep functionality components and consulting to integrate reporting and word processing into .NET Windows, Web and Mobile applications.

## Reporting and Mail Merge

The Text Control Reporting Framework combines powerful reporting features with an easy-to-use, MS Word compatible word processor for ASP.NET, WPF and Windows Forms. Users can create documents and templates using ordinary Microsoft Word skills.

TX Text Control is completely independent from MS Word or any other third-party application and can be completely integrated into your business application.

## MS Word compatible Rich Text Editing

These feature-complete, fully programmable rich edit controls offer developers a broad range of word processing features in reusable UI and non-UI components for ASP.NET, WPF and Windows Forms.

They provide comprehensive text formatting, powerful mail merge features and all word processing key concepts such as table support, images, headers and footers, page sections and spell checking.

## Load and Save Adobe PDFs

Using TX Text Control, Adobe PDF and PDF/A documents can be created including document access security settings and digital signatures.

PDF documents can be imported to be viewed, edited and converted. Edit PDF documents just like any other format such as DOC or DOCX. A fully featured API can be used to modify the content or to search through the document.

Find out more about TextControl:  
[www.componentsource.com/textcontrol](http://www.componentsource.com/textcontrol)

# TEXT CONTROL

Software • Training • Consulting

# TX Text Control .NET Server for ASP.NET

Powerful word processing & reporting for your Web Forms & MVC Web applications.

Publisher: Text Control | Category: Word Processing

Specifically designed to run in server side applications, TX Text Control .NET Server for ASP.NET is ideal for batch processing or printing large volumes of documents.

## Document Conversion

Perform document conversion in batch processes without user interaction. Convert and modify different document types to a standardized style or merge various document types into one unified document.

## Automate Your Word Documents

Using TX Text Control you can automate, edit and create documents using UI and non-UI components, all without Microsoft Office Automation. It also gives you access to flow type layout reporting features.

## Cross-Browser Designer

A true WYSIWYG, HTML5-based Web editor & reporting template designer. Give your users an MS Word compatible editor to create powerful reporting templates anywhere, in any browser, on any device.

**TEXTCONTROL**

Prices from £ 2,640.00

[www.componentsource.com/tx-text-control-net-server](http://www.componentsource.com/tx-text-control-net-server)

# ASP.NET MVC REPORTING

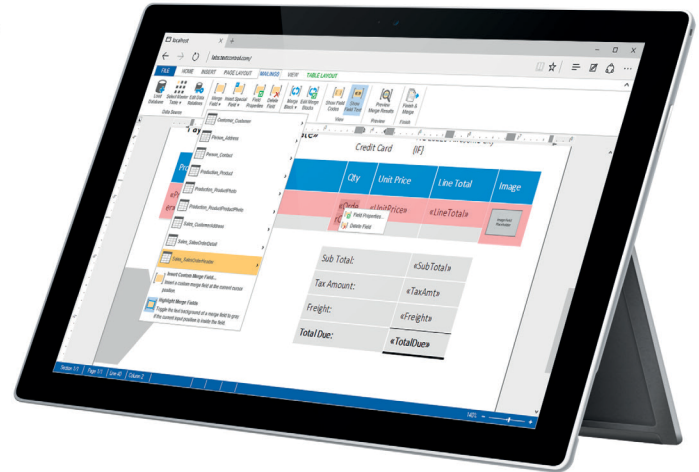

The first cross-browser, true WYSIWYG HTML5-based document editor.

Now with full ASP.NET MVC support.

Give your users an MS Word compatible editor to create powerful documents and reporting templates anywhere - in any browser. Feature-complete including mail merge, sections, headers and footers, drawings and shapes, tables, barcodes and charts.

Available for ASP.NET Web Forms and MVC.

Edit and create MS Word documents

Create and modify Adobe® PDF documents

Create reports and mail merge templates

Integrate with Microsoft® Visual Studio

# Actipro WPF Studio

Everything you need to add rich functionality to your WPF apps.

Publisher: Actipro Software | Category: Presentation Layer | ★★★★★

Over 100 WPF controls and components including barcodes, charts, datagrid, docking & MDI, editors, gauges, micro charts, navigation, property grid, ribbon, syntax editor, themes, tree controls, views, wizards, and a shared library of controls.

## Ribbon Control

Use the Ribbon control to reproduce an Office-like user interface with split buttons, galleries and mini-toolbars. Various layout controls govern where items are placed within a ribbon as it decreases in width.

## Build Rich Dashboards

Use everything from basic line, scatter and bar charts to complex stacked area charts. Combine those with micro charts and gauges. All you need to build attractive dashboards is included.

## SyntaxEditor for WPF

Add advanced code editing functionality to your WPF apps. Over 20 sample languages are included to get you started (such as C#, HTML, JavaScript, and more), and optional premium add-ons are also available.

Prices from £ 452.00  
[www.componentsource.com/actipro-wpf-studio](http://www.componentsource.com/actipro-wpf-studio)

# Highcharts Suite

Add interactive charts and maps to your apps and Web sites.

Publisher: Highsoft | Category: Data Visualization

Highcharts Suite provides an easy way to integrate responsive, SVG-based maps and charts with your Web and mobile projects. The charting library allows for great flexibility and easy styling via JavaScript or CSS.

## Highcharts

Chart types include line charts, area charts, column & bar charts, pie charts, scatter charts, bubble charts, polar charts, pareto charts, funnel charts, bell curves, heat maps, tree maps and gauges.

## Highmaps

Display geographic data with ease. Highmaps provides map area, map line, points of interest, bubbles on maps, heatmaps, and more. Highmaps intelligently adapts to any device and supports multi-touch gestures.

## Highstock

Create sophisticated dynamic financial charts or general timeline charts that work with any back-end database or server stack. Data can be given in any form, including CSV, JSON or loaded and updated live.

Prices from £ 891.00  
[www.componentsource.com/highcharts-suite](https://www.componentsource.com/highcharts-suite)

# Make your data come alive

Easily add interactive, responsive charts, stock charts and maps to your website.

## Highcharts

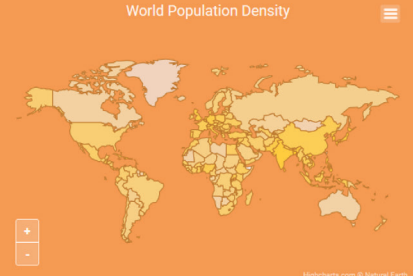

Used by hundreds of thousands of developers and over 80 out of the world's 100 largest companies, Highcharts is the simplest, yet most flexible charting API on the market.

## Highstock

Create stock or timeline charts in pure JavaScript. Includes technical indicators and sophisticated navigation options like a small navigator series, preset date ranges and scrolling.

## Highmaps

Build interactive maps to display sales, election results or any other information linked to geography. Perfect for standalone use or in dashboards in combination with Highcharts!

Also available: **Highcharts Suite** includes Highcharts, Highstock, Highmaps, Highcharts Editor and Highcharts Export Server.

HIGHCHARTS

# Introducing GrapeCity Documents, a new product line of document APIs

## Documents

Take total control of your digital documents with this  
**NEW** collection of ultra-fast, low-footprint document  
APIs for .NET Standard 2.0

These intuitive, extensible APIs allow you to create, load, modify,  
and save Excel spreadsheets and PDFs in any .NET Standard 2.0  
application.

### Expand the reach of modern apps

With full support for .NET Standard 2.0, you can target  
multiple platforms, devices, and cloud with one code base.

### Comprehensive, highly programmable

Do more with your Excel spreadsheets and PDFs: these  
APIs support Windows, Mac, Linux, and a wide variety of  
features for your documents.

### High-speed, small footprint

The API architecture is designed to generate large, optimized  
documents, fast—while remaining lightweight and extensible.

### No dependencies

Generate and edit digital documents with no Acrobat or  
Excel dependencies.

Complete Document APIs **do exist!**
