SFTP Drive

An easy-to-use utility that mounts remote file systems as Windows drives via SFTP.

Publisher: /n software | Category: Network Management

A powerful solution for accessing remote resources as if they were local drives, eliminating the hassle of having to download and upload remote files you need to access and work with.

Highly Flexible

Run SFTP Drive as a Windows service or as a desktop application. Upload and download files via your favorite file manager, such as Windows Explorer. Includes support for multiple drive configurations.

Works with YubiKey

SFTP Drive is YubiKey compatible and has been verified by Yubico. In addition to the SFTP security the drive provides, YubiKey allows you to further protect your remote files with hardware-backed authentication.

Easy and Secure

SFTP Drive is very easy to set-up and start using. Simply use the intuitive installer, enter your connection credentials, and begin working with your remote files in a matter of minutes.

Prices from 88,00 €
www.componentsource.com/sftp-drive

SFTP Drive

An easy-to-use utility that mounts remote file systems as Windows Drives via SFTP. Once connected, you can browse and work with files as if they were stored on your local machine.

S3 Drive

Easily connect to any Amazon S3 compatible storage service via a local virtual drive, eliminating the need to upload and download the files you need to access.

HDFS Drive

Seamlessly access and browse any Hadoop Distributed File System (HDFS) from a local drive. Use your favorite file manager, such as Windows Explorer, to work with your remote files.

Aspose.Total for .NET

Open, create, convert, print and save files from within your own applications.

Publisher: Aspose | Category: Document & Text Processing | ★★★★★

Aspose.Total for .NET is a compilation of every .NET component offered by Aspose. It allows you to create a wide range of applications that work with file formats from Excel, Word, PowerPoint, Project, OneNote, Outlook, Visio and PDF.

Aspose.Words for .NET

Perform a wide range of document processing tasks from within your .NET, iOS, macOS and Android applications. You can generate, modify, convert, render and print documents without using Microsoft Word. It supports DOC, OOXML, RTF, HTML, PDF, XPS, EPUB and many more.

Aspose.Cells for .NET

Allows developers to work with Microsoft Excel spreadsheet file formats. You can use the API in .NET, iOS and Android applications without requiring Excel. It supports all major Excel formats including XLS, XLSX, XLSM, XLTX/XLTM, HTML, CSV, ODS and SpreadsheetML.

Aspose.PDF for .NET

A PDF document processing and parsing API that enables .NET applications to read, write and manipulate PDF files without Adobe Acrobat. The API helps you convert PDF documents to multiple formats as well as transform PDF files to conventional raster and vector images.

Prices from 2.721,00 €

Aspose.PDF for .NET

Create and manipulate PDF documents without using Adobe Acrobat.

Publisher: Aspose | Category: PDF | ★★★★★

Aspose.PDF for .NET is a set of PDF APIs that enables your .NET applications to read, write and manipulate existing PDF documents. It also allows you to create forms and manage form fields embedded in a PDF document.

Imaging Capabilities

Aspose.PDF for .NET allows you to add, replace, extract or delete images already present in a PDF document. You may also add an image as a watermark while generating PDF documents or manipulating existing files.

Manipulate PDF Documents

Transform images, XML, XSL-FO, HTML, SVG, PCL, XPS, EPUB or simple text files to PDF documents. You can also specify XMP metadata, author details, creator details and title information during PDF generation.

Set Security Constraints

Encrypt and decrypt PDF documents with either 40-bit, 128-bit or 256-bit encryption and specify user passwords for further PDF security. Modification, such as copying, printing and PDF document assembly can also be restricted.

Prices from 906,00 €

DevExpress DXperience

Build applications for Windows, Web, mobile and tablet.

Publisher: DevExpress | Category: Presentation Layer | ★★★★★

Includes DevExpress UI controls for WinForms, ASP.NET, MVC, WPF, ASP.NET Core, JavaScript (jQuery, Angular, React, Vue), Blazor, plus Reporting and CodeRush for Visual Studio.

Reporting for .NET

Helps you overcome the limitations associated with traditional reporting solutions with a fully integrated set of productivity tools, report wizards, pre-built report templates and end-user report designers.

DevExtreme JavaScript

Includes a comprehensive collection of high-performance and responsive UI widgets for use in traditional Web and next-gen mobile applications. The suite ships with a feature-complete data grid, interactive chart widgets, data editors, and much more.

ASP.NET Core Controls

Includes 70+ high-performance ASP.NET Core UI controls, powered by lightweight JavaScript widgets. The suite includes a feature-complete reporting platform so you can deliver responsive and elegant line-of-business applications in the shortest possible time.

componentsource.com/devexpress-universal

Create responsive Web apps for touch devices and traditional desktops. DevExtreme includes data grids, interactive charts, data editors, navigation and multi-purpose widgets that are designed to look great and provide powerful functionality in any browser.

Pivot Grid

A feature-rich client-side widget optimized for multi-dimensional data analysis. It includes a rich set of runtime customization options so your users can quickly summarize business trends via its cross-tabular display format.

Data Visualization

All chart, gauge and range selector widgets can be composed into beautiful, informative dashboards that effectively convey information. The widgets that ship as part of DevExtreme can easily be themed and styled to address any UI requirement.

Mapping

DevExtreme Map provides interactive maps that can be customized using different providers and data sources. It includes a client API that allows you to handle hovering, clicking and selection for areas and markers.

InstallAware Studio Admin

Fast application repackager and MSI Transformer.

Publisher: InstallAware | Category: Development & Deployment

The dependency-free installation engine runs on ARM, 32bit, and 64bit AMD/Intel devices - all from a single binary. Enjoy native access to protected operating system file system and registry locations on all target architectures.

Support for ARM, AMD64 & X86

Native setup captures, and application repackaging on all Windows platforms. Whether you are installing a new ARM64 app, a mainstream AMD64 binary, or a legacy X86 application, InstallAware's Setup Capture will perfectly record all changes made to your OS.

Transmute the Old into the New

Convert any X86, AMD64, or ARM64 application into any number of containerization or virtualization formats, including MSIX, APPX, App-V, and even agentless independent EXE virtualization.

MSI Transformer MST Creator

Visually record mouse clicks on MSI packages and emit MST transform files for effortless customization. Simply run through the installation package, and let InstallAware record all properties, features, and choices ready for export in a reusable, encapsulated MST file.

Prices from 3.555,00 €
www.componentsource.com/installaware-studio-admin

NEW!

InstallAware X11

InstallAware X11 is the first and only decentralized installer with support for torrents/magnets, helping you distribute your setups using peer to peer networking, taking a major load off your web servers!

MAGNET / TORRENT PEER TO PEER NETWORKING

First and only to source binary bits from decentralized networks.

CONSUMABLE, API-WRAPPED SETUP ENGINE

Consume InstallAware's Native Code and Windows Installer engines from external code.

SETUP SCRIPT ANALYTICS

All unique command types, counts; fully editable. Available even in Express editions!

FULL WINDOWS 10 19H2 / 1909 SUPPORT

Supports .NET 4.8, C++ 15.9, Visual Studio 2019, SQL Server 2019, and the entire eco-system.

THREE-WAY INTEGRATED IDE

New, pure XML view - free flowing editor, parsed automatically to/from MSIScript.

InstallAware is the most flexible platform for traditional and agile development teams creating Windows and Azure software installers, as well as MSIX Universal Windows Platform, Microsoft App-V Virtualization, and agentless/royalty-free InstallAware Virtualization packages.

Bridge all of your Win32, Win64, and .NET apps through Microsoft's Desktop Bridge to the Microsoft Windows Store using InstallAware's new MSIX Builder!

www.componentsource.com/installaware

InstallAware Studio

Create scalable, small, stable and fast installing setups.

Publisher: InstallAware | Category: Development & Deployment

From single-click installers to 100% visual Windows Feature/Server Role configuration - make setups fun again. Now with script analytics, showing you the types and numbers of setup commands used, and even the ability to edit them one at a time.

Single-Click Installation Template

Modeled after the MSIX design ethos, it makes installations a snap again. A single dialog and a single install button is all it takes for a perfect installation and/or uninstallation of your software. Of course, you retain full control over what happens when and what goes where.

Torrent/Magnet Support

Source your bits from decentralized, peer to peer networks. You can host your setups on torrent/magnet distributed infrastructure, and let your customers automatically share the bits they have downloaded, even if their installation is already in progress.

100% Updated and Accurate Features and Roles

InstallAware lets you configure Windows 100% visually for all versions ever released. From a dialog mimicking the "Turn Windows features on or off" applet, enjoy version-perfect feature matching and dependency resolution.

Prices from 1.777,00 €

Syncfusion Essential Studio Enterprise

High-performance toolkits for your development projects.

Publisher: Syncfusion | Category: Presentation Layer | ★★★★★

Includes more than 1,000 components and frameworks for WinForms, WPF, ASP.NET (Web Forms, MVC, Core), UWP, Xamarin, Flutter, JavaScript, Angular, Blazor, Vue and React.

Flutter Widgets

Use Syncfusion Flutter widgets to create rich and high-quality mobile applications in iOS and Android, with a single code base. The widgets are highly customizable and work with any layout. Additionally, all widget elements can be easily customized.

ASP.NET Core UI

Contains over 70 high-performance and responsive UI controls. The framework was built from scratch to be lightweight and modular and its footprint can be reduced further by including only the specific components and features your application requires.

Excel Framework

Allows you to create, read, and edit Microsoft Excel files in any application. It offers an Excel-inspired Spreadsheet UI control to create, edit, view, and format Excel documents. Its powerful conversion APIs make it easy to convert Excel files to PDF, images, and more.

WHY SYNCFUSION?

- Built from scratch using Xamarin
- Frequent updates – 4 per year
- Optimized for performance

 Syncfusion®

Syncfusion Essential Studio for JavaScript

A complete JavaScript UI controls library.

Publisher: Syncfusion | Category: Presentation Layer | ★★★★★

Includes high-performance, lightweight, modular, and responsive UI controls. All the controls are touch friendly and render adaptively based on the device, providing an optimal user experience on phones, tablets, and desktops.

Stunning Built-in Themes

Pixel-perfect built-in themes are available in Material, Bootstrap, and Fabric designs. In addition, Syncfusion Essential Studio for JavaScript includes an accessible high-contrast theme and an online tool for customizing built-in themes.

Scheduler

A fully-featured calendar control that allows users to manage their time efficiently. It facilitates easy resource scheduling and appointment rescheduling through editor pop-ups, drag and drop, and resizing actions.

Pivot Table

Organize and summarize business data and display the result in a cross-table format. Includes data binding, drilling up and down, filtering and sorting, editing, Microsoft Excel and PDF exporting and several built-in aggregations.

Prices from 884,00 €

TX Text Control .NET Server for ASP.NET

Powerful word processing and reporting for your Web Forms & MVC Web applications.

Publisher: Text Control | Category: Word Processing

Specifically designed to run in server-side applications, TX Text Control .NET Server for ASP.NET is ideal for batch processing or printing large volumes of documents.

Excel Compatible Formulas

Formulas can be used in table cells to calculate results based on other cells in the same table. TX Text Control .NET Server for ASP.NET supports more than 100 different formulas including SUM, MAX and AVERAGE.

Rich Text Editor

Available for ASP.NET MVC and Web Forms, the HTML5-based rich text editor provides a Microsoft Word-inspired UI to create, edit and modify Word compatible documents. It provides high performance document editing and true WYSIWYG rendering.

Track Document Changes

Changes are visually marked in the Text Control editor and are also available in the sidebar, along with a time stamp and author information. This allows multiple users to collaborate by working on the same document.

TEXTCONTROL

Prices from 2.878,00 €

www.componentsource.com/tx-text-control-net-server

Create Documents in the Cloud from Any Platform

RESTful Web API powered reporting
platform to create MS Word
compatible reports.

**WE ARE CHANGING
THE WAY YOU LOOK AT
REPORTING**

Text Control ReportingCloud

Web API reporting platform to create Microsoft Word compatible reports in the Cloud.

Publisher: Text Control | Category: Cloud Services

Use the Text Control ReportingCloud Web API to merge templates with JSON data from all clients such as .NET, JavaScript, PHP, NodeJS, jQuery, Python, Android, Java, iOS and many more.

Merge with Data

Using simple HTTP requests, merge fields and repeating blocks in templates can be merged with hierarchical JSON data from within your application.

Design your Template

Create customized invoices, contracts and quotes directly using the WYSIWYG online template designer.

Retrieve Created Document

The merged templates are returned as Adobe PDF, MS Word and HTML format and you can use them immediately in your application.

TEXTCONTROL

Prices from 334,00 €
www.componentsource.com/text-control-reportingcloud

The Text Control Reporting Framework combines powerful reporting features with an easy-to-use, MS Word compatible, word processor.

REPORTING**

Actipro WPF Studio

UI controls for building beautiful desktop apps.

Publisher: Actipro Software | Category: Presentation Layer | ★★★★★

Includes advanced docking windows, MDI, property grids, tree controls, folder/file browsers, robust editors, auto-completion, masked editing, and code editing.

SyntaxEditor

Add a powerful Microsoft Visual Studio-like code editing experience to your applications. Includes all the advanced features found in popular code editors for most popular languages, or custom build your own to handle any proprietary language.

Charts

A set of full-sized charts that provide rich visualization for data. Many chart types are supported, from basic line and bar charts to stacked area charts. Includes numerous useful features such as multiple series, labels, legends, stacking, and customizable palettes.

Docking & MDI

A complete docking tool window and multiple document interface solution. Windows can be docked, attached (to create a tab group), floated, auto-hidden, or moved to an optional MDI area. Complex resizable hierarchies of tool and document windows can also be created.

Prices from 577,00 €
www.componentsource.com/actipro-wpf-studio

WPF User Interface Controls

Over 100 WPF controls and components are available in an assortment of products that improve your application's UI with rich features and functionality.

Office-Inspired UI

Duplicate the appearance and functionality of modern Office applications, harnessing a familiar interface for your end users.

Leading Code Editor

SyntaxEditor is the premier syntax-highlighting code editor control for .NET UI platforms, offering most of the features found in the Visual Studio editor.

IDEs With Ease

Many of our UI controls have been written with IDE-creation in mind. Powerful docking windows, MDI, property grids, shell controls, and editors are available.

LEADTOOLS Document Imaging Suite SDK

Build end-to-end document imaging solutions.

Publisher: LEADTOOLS | Category: Image Editing & Processing | ★★★★★

This powerful set of tools utilizes LEAD's award-winning image processing technology to intelligently recognize and extract data from any type of scanned image.

Image Cleanup

Rid scanned documents of artifacts and imperfections such as hole punches, skewed angles, borders, and dust specks. Improve recognition accuracy, optimize processing speed, and improve lossless compression ratios.

JavaScript Document Viewer

Create robust, full-featured applications with rich document-viewing capabilities, including text search, annotation, memory-efficient paging, inertial scrolling, and vector display. Includes support for 150+ file formats and 30+ annotation and markup objects.

Extract PDF Text and Images

You can easily extract text (characters, words, and lines), fonts, annotations, rectangles, and hyperlinks, with location and size, from PDF files. Images from documents can be also saved to any of the supported 150+ file formats.

Prices from 4.440,00 €
