SFTP Drive

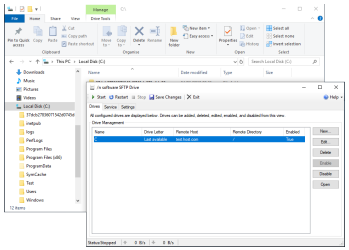

Top 25 Publisher

Enterprise Partner

An easy-to-use utility that mounts remote file systems as Windows drives via SFTP.

Publisher: /n software | Category: Network Management

A powerful solution for accessing remote resources as if they were local drives, eliminating the hassle of having to download and upload remote files you need to access and work with.

Highly Flexible

Run SFTP Drive as a Windows service or as a desktop application. Upload and download files via your favorite file manager, such as Windows Explorer. Includes support for multiple drive configurations.

Works with YubiKey

SFTP Drive is YubiKey compatible and has been verified by Yubico. In addition to the SFTP security the drive provides, YubiKey allows you to further protect your remote files with hardware-backed authentication.

Easy and Secure

SFTP Drive is very easy to set-up and start using. Simply use the intuitive installer, enter your connection credentials, and begin working with your remote files in a matter of minutes.

/n software

Prices from £ 75.00

www.componentsource.com/sftp-drive

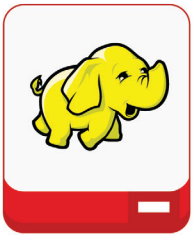

SFTP Drive

An easy-to-use utility that mounts remote file systems as Windows Drives via SFTP. Once connected, you can browse and work with files as if they were stored on your local machine.

S3 Drive

Easily connect to any Amazon S3 compatible storage service via a local virtual drive, eliminating the need to upload and download the files you need to access.

HDFS Drive

Seamlessly access and browse any Hadoop Distributed File System (HDFS) from a local drive. Use your favorite file manager, such as Windows Explorer, to work with your remote files.

Aspose.Total for .NET

#5 Product | #3 Publisher | Enterprise Partner

Open, create, convert, print and save files from within your own applications.

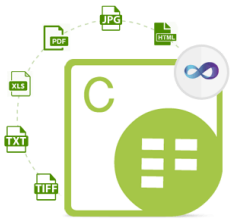

Publisher: Aspose | Category: Document & Text Processing | ★★★★★

Aspose.Total for .NET is a compilation of every .NET component offered by Aspose. It allows you to create a wide range of applications that work with file formats from Excel, Word, PowerPoint, Project, OneNote, Outlook, Visio and PDF.

Aspose.Words for .NET

Perform a wide range of document processing tasks from within your .NET, iOS, macOS and Android applications. You can generate, modify, convert, render and print documents without using Microsoft Word. It supports DOC, OOXML, RTF, HTML, PDF, XPS, EPUB and many more.

Aspose.Cells for .NET

Allows developers to work with Microsoft Excel spreadsheet file formats. You can use the API in .NET, iOS and Android applications without requiring Excel. It supports all major Excel formats including XLS, XLSX, XLSM, XLTX/XLTM, HTML, CSV, ODS and SpreadsheetML.

Aspose.PDF for .NET

A PDF document processing and parsing API that enables .NET applications to read, write and manipulate PDF files without Adobe Acrobat. The API helps you convert PDF documents to multiple formats as well as transform PDF files to conventional raster and vector images.

Aspose.PDF for .NET

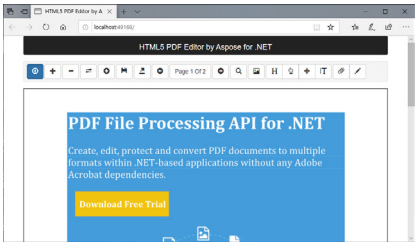

Top 25 Product | #3 Publisher | Enterprise Partner

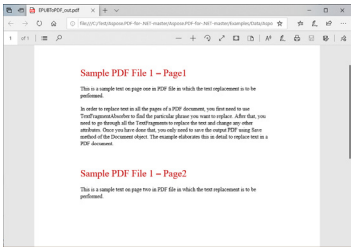

Create and manipulate PDF documents without using Adobe Acrobat.

Publisher: Aspose | Category: PDF | ★★★★★

Aspose.PDF for .NET is a set of PDF APIs that enables your .NET applications to read, write and manipulate existing PDF documents. It also allows you to create forms and manage form fields embedded in a PDF document.

Imaging Capabilities

Aspose.PDF for .NET allows you to add, replace, extract or delete images already present in a PDF document. You may also add an image as a watermark while generating PDF documents or manipulating existing files.

Manipulate PDF Documents

Transform images, XML, XSL-FO, HTML, SVG, PCL, XPS, EPUB or simple text files to PDF documents. You can also specify XMP metadata, author details, creator details and title information during PDF generation.

Set Security Constraints

Encrypt and decrypt PDF documents with either 40-bit,128-bit or 256-bit encryption and specify user passwords for further PDF security. Modification, such as copying, printing and PDF document assembly can also be restricted.

ASPOSE File Format APIs

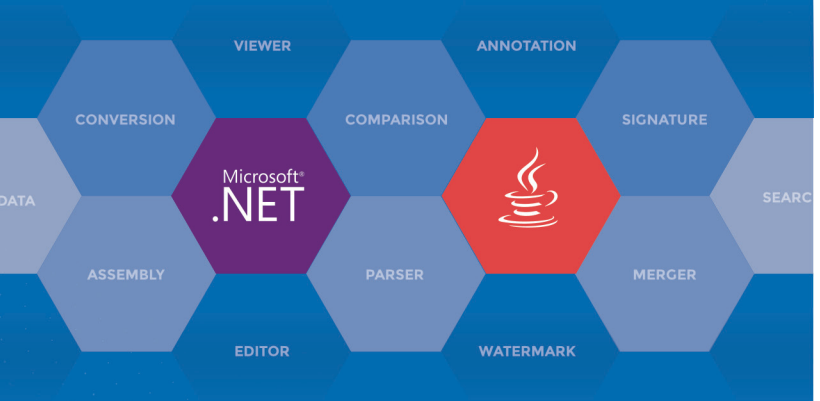

Prices from £ 772.00

The dependency-free installation engine runs on ARM, 32bit, and 64bit AMD/Intel devices - all from a single binary. Enjoy native access to protected operating system file system and registry locations on all target architectures.

Support for ARM, AMD64 & X86

Native setup captures, and application repackaging on all Windows platforms. Whether you are installing a new ARM64 app, a mainstream AMD64 binary, or a legacy X86 application, InstallAware's Setup Capture will perfectly record all changes made to your OS.

Transmute the Old into the New

Convert any X86, AMD64, or ARM64 application into any number of containerization or virtualization formats, including MSIX, APPX, App-V, and even agentless independent EXE virtualization.

MSI Transformer MST Creator

Visually record mouse clicks on MSI packages and emit MST transform files for effortless customization. Simply run through the installation package, and let InstallAware record all properties, features, and choices ready for export in a reusable, encapsulated MST file.

NEW!
InstallAware X11

InstallAware X11 is the first and only decentralized installer with support for torrents/magnets, helping you distribute your setups using peer to peer networking, taking a major load off your web servers!

InstallAware

MAGNET / TORRENT PEER TO PEER NETWORKING
First and only to source binary bits from decentralized networks.

CONSUMABLE, API-WRAPPED SETUP ENGINE
Consume InstallAware's Native Code and Windows Installer engines from external code.

SETUP SCRIPT ANALYTICS
All unique command types, counts; fully editable. Available even in Express editions!

FULL WINDOWS 10 19H2 / 1909 SUPPORT
Supports .NET 4.8, C++ 15.9, Visual Studio 2019, SQL Server 2019, and the entire eco-system.

THREE-WAY INTEGRATED IDE
New, pure XML view - free flowing editor, parsed automatically to/from MSIcode.

InstallAware is the most flexible platform for traditional and agile development teams creating Windows and Azure software installers, as well as MSIX Universal Windows Platform, Microsoft App-V Virtualization, and agentless/royalty-free InstallAware Virtualization packages.
Bridge all of your Win32, Win64, and .NET apps through Microsoft's Desktop Bridge to the Microsoft Windows Store using InstallAware's new MSIX Builder!

Visual Studio Partner

www.componentsource.com/installaware

InstallAware Studio

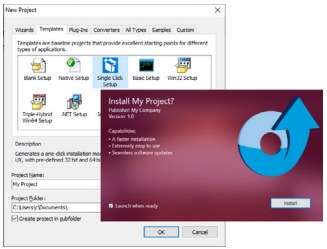

Top 50 Publisher

Enterprise Partner

Create scalable, small, stable and fast installing setups.

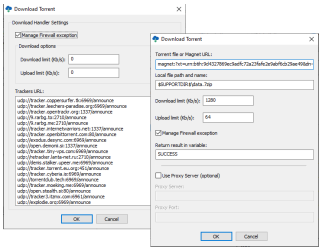

Publisher: InstallAware | Category: Development & Deployment

From single-click installers to 100% visual Windows Feature/Server Role configuration - make setups fun again. Now with script analytics, showing you the types and numbers of setup commands used, and even the ability to edit them one at a time.

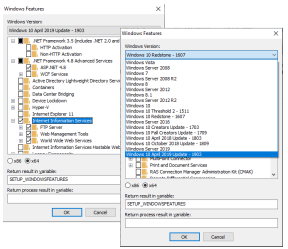

Single-Click Installation Template

Modeled after the MSIX design ethos, it makes installations a snap again. A single dialog and a single install button is all it takes for a perfect installation and/or uninstallation of your software. Of course, you retain full control over what happens when and what goes where.

Torrent/Magnet Support

Source your bits from decentralized, peer to peer networks. You can host your setups on torrent/magnet distributed infrastructure, and let your customers automatically share the bits they have downloaded, even if their installation is already in progress.

100% Updated and Accurate Features and Roles

InstallAware lets you configure Windows 100% visually for all versions ever released. From a dialog mimicking the "Turn Windows features on or off" applet, enjoy version-perfect feature matching and dependency resolution.

TX Text Control .NET Server for ASP.NET

Top 50 Publisher | Enterprise Partner

Powerful word processing and reporting for your Web Forms & MVC Web applications.

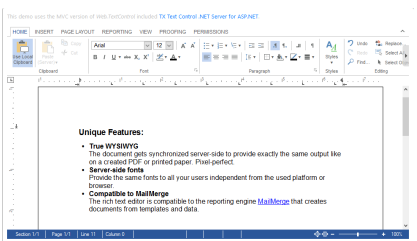

Publisher: Text Control | Category: Word Processing

Specifically designed to run in server-side applications, TX Text Control .NET Server for ASP.NET is ideal for batch processing or printing large volumes of documents.

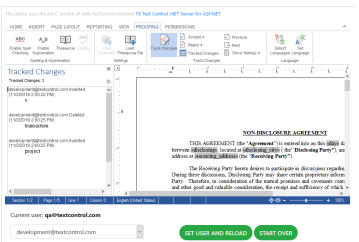

Excel Compatible Formulas

Formulas can be used in table cells to calculate results based on other cells in the same table. TX Text Control .NET Server for ASP.NET supports more than 100 different formulas including SUM, MAX and AVERAGE.

Rich Text Editor

Available for ASP.NET MVC and Web Forms, the HTML5-based rich text editor provides a Microsoft Word-inspired UI to create, edit and modify Word compatible documents. It provides high performance document editing and true WYSIWYG rendering.

Track Document Changes

Changes are visually marked in the Text Control editor and are also available in the sidebar, along with a time stamp and author information. This allows multiple users to collaborate by working on the same document.
