/n software Red Carpet Subscription

A comprehensive suite of Internet components. Any protocol, any platform, any IDE.

Publisher: /n software | Category: Communication & Messaging | ★★★★★

Components for every major protocol from FTP to IMAP to SNMP, SSL and SSH security, S/MIME encryption, Digital Certificates, Credit Card Processing, Bluetooth Low Energy, Internet of Things (IoT), and e-business (EDI) transactions.

File and Streaming Compression

Easily integrate compression and decompression into apps using Zip, Tar, Gzip, 7-Zip, Bzip2, ZCompress, or Jar standards. The components combine exceptional speed with an excellent data compression ratio.

Internet Development

IP*Works! provides programmable, SSL-enabled components that facilitate tasks such as ensuring security, sending email, transferring files, managing networks, browsing the Web and consuming Web Services.

Encrypt/Decrypt Files and Emails

Easily implement strong encryption via major cryptographic standards. Features include encryption & decryption, secure message hashing, signing & signature verification and digital certificate generation.

Prices from 1.579,00 €

SFTP Drive

Mount remote file systems as Windows drives via SFTP.

Publisher: /n software | Category: Storage

A powerful solution for accessing remote resources as if they were local drives, eliminating the hassle of having to download and upload remote files you need to access and work with.

Easy and Secure

SFTP Drive is very easy to set-up and start using. Simply use the intuitive installer, enter your connection credentials, and begin working with your remote files in a matter of minutes.

Highly Flexible

Run SFTP Drive as a Windows service or as a desktop application. Upload and download files via your favorite file manager, such as Windows Explorer. Includes support for multiple drive configurations.

Works with YubiKey

SFTP Drive is YubiKey compatible and has been verified by Yubico. In addition to the SFTP security the drive provides, YubiKey allows you to further protect your remote files with hardware-backed authentication.

Prices from 25,00 €
www.componentsource.com/sftp-drive

SFTP Drive

An easy-to-use utility that mounts remote file systems as Windows Drives via SFTP. Once connected, you can browse and work with files as if they were stored on your local machine.

S3 Drive

Easily connect to any Amazon S3 compatible storage service via a local virtual drive. Browse and interact directly with your remote files without creating local copies.

AES Drive

An easy-to-use utility that keeps files securely encrypted on disk. Your decrypted files are available at your fingertips - yet always remain encrypted on disk.

Aspose.Total for .NET

Open, create, convert, print and save files from within your own applications.

Publisher: Aspose | Category: Document & Text Processing | ★★★★★

Aspose.Total for .NET is a compilation of every .NET component offered by Aspose. It allows you to create a wide range of applications that work with file formats from Excel, Word, PowerPoint, Project, OneNote, Outlook, Visio and PDF.

Aspose.PDF for .NET

A PDF document processing and parsing API that enables .NET applications to read, write and manipulate PDF files without Adobe Acrobat. The API helps you convert PDF documents to multiple formats as well as transform PDF files to conventional raster and vector images.

Aspose.Slides for .NET

Enables any .NET application to read, write, modify and convert PowerPoint documents, without the need for Microsoft PowerPoint. It can render presentation slides to PDF, XPS, HTML, images and PDF Notes.

Aspose.Cells for .NET

Allows developers to work with Microsoft Excel spreadsheet file formats. You can use the API in .NET, iOS and Android applications without requiring Excel. It supports all major Excel formats including XLS, XLSX, XLSM, XLTX/XLTM, HTML, CSV, ODS and SpreadsheetML.

Prices from 3.583,00 €

Aspose.Cells for .NET

Manipulate and convert spreadsheet files from within your own applications.

Publisher: Aspose | Category: Spreadsheet | ★★★★★

Aspose.Cells for .NET provides flexible components that enable .NET applications to create, modify, convert, render and print Excel spreadsheets without requiring Microsoft Excel to be installed on the server.

Supported File Formats

Aspose.Cells for .NET allows you to import and export XLS, XLSX, XLSM, XLSB, XLTX, XLTM, XML, CSV, TSV, HTML, MHTML and ODS file formats. In addition you can also export to PDF, PDF/A, XPS, TIFF, JPEG, EMF, PNG, BMP and SVG.

Comprehensive Formatting

Aspose.Cells for .NET gives you absolute control over how your data is presented by offering advanced formatting features. You can apply individual formatting to a worksheet, row, column or cell.

Advanced Features

Save and open Excel files to and from streams, send generated output to client browsers and easily import formulas, images and charts from spreadsheets.

Prices from 1.074,00 €

DevExpress DXperience

Build applications for Windows, Web, mobile and tablet.

Publisher: DevExpress | Category: Presentation Layer | ★★★★★

Includes DevExpress UI controls for WinForms, ASP.NET, MVC, WPF, ASP.NET Core, JavaScript (jQuery, Angular, React, Vue), Blazor, plus Reporting and CodeRush for Visual Studio.

Windows 11 Rounded Corners

Your DevExpress-powered WinForms apps can now include rounded corners to match the look and feel of Windows 11. Enable the new setting to apply rounded corners to forms, dialogs, flyouts, and panels.

Reports for Blazor

Includes a fully integrated set of productivity tools, pre-built report templates, document viewer, Visual Studio and end-user report designers. You can preview and print documents and export to PDF, XLS, DOCX, HTML, CSV, images etc.

Customizable Empty Points

The Chart Control can now process gaps (within a data source) as empty points. The appearance of these gaps can be customized with different style options. You can change the appearance of point markers, line, and area segments.

Prices from 1.317,00 €

ComponentSource

DevExtreme Complete

JavaScript component suite for responsive Web development.

Publisher: DevExpress | Category: Presentation Layer | ★★★★★

From Angular and React to jQuery and Vue, DevExtreme includes a comprehensive collection of responsive UI widgets for use in Web and Mobile applications. It includes a feature-complete data grid, interactive data visualization widgets, and much more.

6 Total Count				
Grouping by State				
Collapse All				
	Invoice Number	Order Date	Employee	Sale Amount
State: Arizona				
	57429	12/31/2013	Clark Morgan	\$11,050
State: California				
	35703	4/10/2014	Harv Mudd	\$11,800
	35711	1/12/2014	Jim Packard	\$16,050
	38466	3/1/2014	Harv Mudd	\$7,800
	39420	2/15/2014	Jim Packard	\$20,500

Grid Toolbar Customization

A new toolbar property allows you to customize toolbar items in much the same way as a standalone Toolbar. In addition, you can specify an item using a predefined string name from the list of built-in DataGrid commands.

Data Visualization

All chart, gauge and range selector widgets can be composed into beautiful, informative dashboards that effectively convey information. The widgets that ship as part of DevExtreme can easily be themed and styled to address any UI requirement.

Gantt Filtering

End-users can now filter tasks using the header filter or using a filter row. The header filter allows users to filter values in an individual column or users can enter a value into the filter row to filter Gantt data.

Prices from 439,00 €
www.componentsource.com/devextreme

DevExpress Reporting & Dashboard for .NET

Ready for Windows, the Web and Your Mobile World

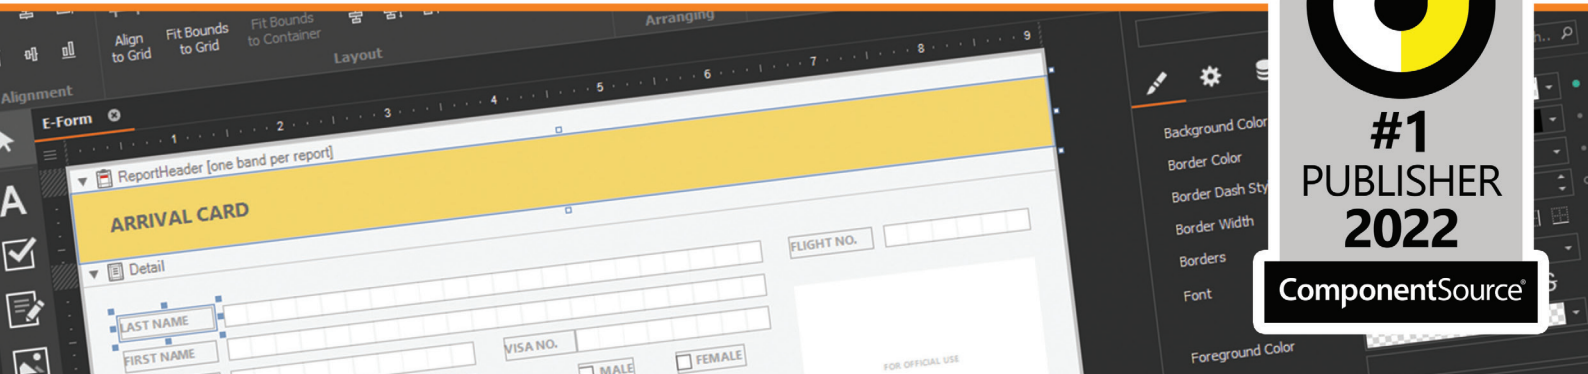

Your Next Great App Starts Here

Create information-rich and royalty-free decision support systems for executives and business users across platforms and computing devices. Includes a fully integrated end-user report designer and an end-user dashboard designer.

PUBLISHER
2022

ComponentSource

ActiveReports.NET

A premium .NET reporting solution for Web and desktop applications.

Publisher: GrapeCity | Category: Reporting | ★★★★★

Design and deliver powerful reports with intuitive, reliable, and user-friendly report designers and controls for .NET Core, .NET 6, ASP.NET, ASP.NET MVC, WinForms, and WPF.

Blazor Viewer

Integrate a full-featured, customizable report viewer into your Blazor applications. It can automatically adjust to your screen size giving the best view of your reports on modern browsers, mobile and desktop devices.

End-User Report Designer for Web

Offer ad hoc report design for your end-users in your Web apps. This embeddable component enables end-users to build reports code-free, using the easy drag-and-drop interface and a familiar, user-friendly, UI.

Report Animations

You can now add animations to Chart and Table controls in Page and RDL reports. Animations help you create rich reports by highlighting chart series and table rows on mouse hover.

Prices from 753,00 €
www.componentsource.com/activereports-developer

COMPLETE REPORTING SOLUTION FOR **.NET** AND **JAVASCRIPT** APPLICATIONS

Embedded reporting for web (ASP.NET Core, ASP.NET MVC, pure JavaScript) and desktop (WinForm, WPF) applications

End-users can design dynamic ad-hoc reports in desktop or web solutions

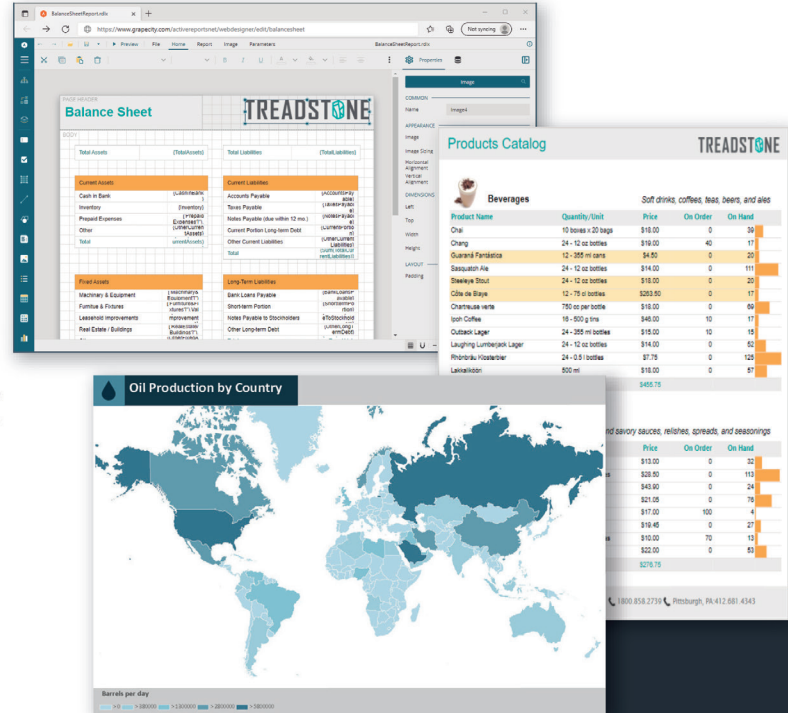

Code in your favorite platforms like .NET 6 or Blazor

Customize and deliver powerful reports with our intuitive and user-friendly report designers and controls

Distribute reports to all devices, royalty-free

InstallAware Studio Admin

Premier software installation and application repackaging for Windows.

Publisher: InstallAware | Category: Development & Deployment

Lightning fast setup repackaging minimizes or eliminates the need for installation re-engineering. Host your applications on the true cloud that nobody owns, build and sell installers as non fungible tokens.

Download any Torrent File or Magnet Link

Source any arbitrary bits from decentralized networks and remove the need for traditional file hosting; eliminating your dependency on the uptime of any single party.

Advanced Download Settings

Customize trackers, set download and upload limits, automatically create and reset firewall exceptions where needed. Clients will also host your Web Media Blocks as they are downloading.

Download Engine

Register the Download Torrent plug-in as your primary download handler in the InstallAware setup engine. Now all your Web Media Blocks are routed through decentralized networks.

Prices from 4.212,00 €
www.componentsource.com/installaware-studio-admin

NOW CRYPTO AWARE!

New: InstallAware X14

Sell software for ETH at install time, or reactivate past purchases (being as lenient with hardware changes as you like). No need for merchant accounts, middle entities, or legacy processors. All you need is a free ETH wallet! Only InstallAware does crypto.

ETHEREUM PAYMENTS, BLOCKCHAIN RECORDS

Sell your software for cryptocurrency with instant & free transaction lookup.

WORK FROM ANYWHERE WITH AZURE DEVOPS & VISUAL STUDIO 2022

Our Team Project Explorer empowers the new normal, now with Visual Studio 2022 integration.

FULLY UPDATED WINDOWS 11 FEATURES AND SERVER 2022 ROLES

Names and dependencies listed exactly as seen in each version of Windows ever released!

FULL-STACK ARM64 SUPPORT (INCLUDING SETUP CAPTURES)

Powered by a 100% runtime-free, super-stable & scalable setup engine that runs everywhere.

HOSTING ON THE TRUE CLOUD THAT NOBODY OWNS

This isn't an opaque monopolist/duopolist's backyard. Host on BitTorrent, use Magnet links.

InstallAware is the most flexible platform for traditional and agile development teams creating Windows and Azure software installers, as well as MSIX Universal Windows Platform, Microsoft App-V Virtualization, and agentless/royalty-free InstallAware Virtualization packages.

Ship a smart installer delivering payloads to native X86, AMD64, and ARM64 locations from a single setup binary, supporting all Windows & Server versions ever released!

www.componentsource.com/installaware

InstallAware Studio

Accept Ethereum payments at install time, save activation records on the blockchain.

Publisher: InstallAware | Category: Development & Deployment

Now with support for Windows 11 and Server 2022, it provides you with the latest features and technology support, with the advantages of true rapid-Windows Installer development productivity.

Ethereum Product

Pick your price in USD. Prices are converted live into ETH at transaction time so volatility is not an issue. Gas fees are automatically adjusted and absorbed by your client.

Easily Connect to the Ethereum Mainnet

Connect through a free (or professionally maintained) third party node, or run and route transactions through your own privately kept node for high volume accounts.

Ethereum Payment

Funds arrive in your ETH wallet as soon as payment is made, and the blockchain permanently records activating device details. No gas or other fees are consumed during reinstalls.

Prices from 2.105,00 €
www.componentsource.com/installaware-studio

About InstallAware

InstallAware Software, founded in 2003, is the leading Cloud Infrastructure Company with its laser sharp focus on bullet-proof enterprise software deployment. InstallAware has been recognized by multiple awards from Microsoft, SDTimes "Leader of the Software Development Industry", Visual Studio Magazine Reader's Choice, ComponentSource, and WindowsITPro, among others.

InstallAware X14 is available for immediate download at:
<https://www.componentsource.com/installaware>

-  **MERGE SETUPS INTO A MASTER PACKAGE WITH THE SUITE WIZARD**

Syncfusion Essential Studio for JavaScript

A complete JavaScript UI controls library.

Publisher: Syncfusion | Category: Presentation Layer | ★★★★★

Includes 65+ high-performance, lightweight, modular, and responsive UI controls. All the controls are touch friendly and render adaptively based on the device, providing an optimal user experience on phones, tablets, and desktops.

A screenshot of a Pivot Table in Syncfusion Essential Studio. The table displays data across four columns: P1 2013, P1 2014, P1 2015, and P1 2016. The rows are categorized by 'Region' and 'Sales'. The data is presented in a cross-table format with alternating green and red background colors for the data cells. A sidebar on the left shows a tree view of the data structure.

Pivot Table

Organize and summarize business data and display the result in a cross-table format. Includes data binding, drilling up and down, filtering and sorting, editing, Microsoft Excel and PDF exporting and several built-in aggregations.

Stunning Built-in Themes

Pixel-perfect built-in themes are available in Material, Bootstrap, and Fabric designs. In addition, Syncfusion Essential Studio for JavaScript includes an accessible high-contrast theme and an online tool for customizing built-in themes.

Angular Word Processor

Provides all common Word processing features including editing text, formatting contents, resizing images and tables, finding and replacing text, bookmarks, tables of contents, printing, and importing and exporting Microsoft Word documents.

Spreadsheet

Renders the look and feel of a Microsoft Excel table by offering many cell-formatting options, styles, and themes. You are able to export the content of your spreadsheets to PDF or Excel format (.xlsx), as well as import Excel workbook content.

Modern UI Made Easy

Build feature-rich, modern experiences for Web, Mobile and Desktop, faster than ever with Telerik and Kendo UI components

Telerik DevCraft Complete

Quickly build modern, high-performance apps for any platform.

Publisher: Telerik | Category: Presentation Layer | ★★★★★

Get 1,250+ .NET and JavaScript components for building feature-rich and professionally designed Web, desktop and mobile apps in less time and with less effort.

UI for Blazor

Develop Blazor applications in half the time with a high-performing Grid and truly native, easy-to-customize UI components to cover any requirement. Built from the ground-up to ensure you experience shorter development cycles, quick iterations and cut time to market.

The screenshot shows a data grid with columns: Employee, Contact Name, Job Title, Country, and Status. The data includes employees like Sig Jeannel, Sheldon Greyes, Megan Cody, Clevev Thurnfield, and Ruth Baldini.

UI for Angular

100+ fully native components for building a high-quality modern UI in no time. Includes datagrid, chart, calendar, PDF and Excel export, and many more. Use the default themes (including Material and Bootstrap) or customize them to fit in to your own designs.

The screenshot shows a table with columns: PRODUCT, PRODUCT CATEGORY, QTY, and PRICE. The data includes products like Road Series, Mountain Frames, and Road Frames.

UI for WinUI

Build feature-rich desktop applications in a faster and more effective way with the latest technology. The library provides support for WinUI 3 and enhances its power by providing developer tools and Fluent-inspired UI components.

The Most Powerful Software Developer Tools Collection for Any Platform & Technology

TX Text Control .NET Server for ASP.NET

Add document processing to your ASP.NET Core, ASP.NET and Angular applications.

Publisher: Text Control | Category: Word Processing | ★★★★★

Integrate fully-featured document editing and viewing into your Web applications. Combine the power of a reporting tool and an easy-to-use WYSIWYG word processor, which is fully programmable and embeddable, in your ASP.NET application.

Document Editor

Integrate a powerful, Microsoft Word compatible document editor that runs in all browsers. Based on modern browser technology, TX Text Control provides professional, out-of-the-box document editing functionality for your business applications.

Server-Side Processing

A server-side component is used to generate, merge or modify documents programmatically in your controller code. Merge templates with data and generate a variety of document formats including Adobe PDF, Office Open XML and RTF.

Document Viewer

Integrate document viewing, annotation and form filling features into your applications. Use the lightweight document viewer to view any supported document types in any browser on any device.

TEXTCONTROL

Prices from 4.030,00 €

TEXT**CONTROL**

Rethinking Documents

Integrate document editing, creation, collaboration and reporting into your applications.

www.componentsource.com/textcontrol

Text Control ReportingCloud

Web API reporting platform to create Microsoft Word compatible reports in the Cloud.

Publisher: Text Control | Category: Cloud Services

Use the Text Control ReportingCloud Web API to merge templates with JSON data from all clients such as .NET, JavaScript, PHP, NodeJS, jQuery, Python, Android, Java, iOS and many more.

Design your Template

Create customized invoices, contracts and quotes directly using the WYSIWYG online template designer.

Retrieve Created Document

The merged templates are returned as Adobe PDF, MS Word and HTML format and you can use them immediately in your application.

Merge with Data

Using simple HTTP requests, merge fields and repeating blocks in templates can be merged with hierarchical JSON data from within your application.

TEXTCONTROL

Prices from 334,00 €
www.componentsource.com/text-control-reportingcloud

TEXTCONTROL

Our Digital Document Processing Core Technologies

Document Editing

Integrate a fully-featured, MS Word compatible document editor to create and edit documents.

PDF Processing

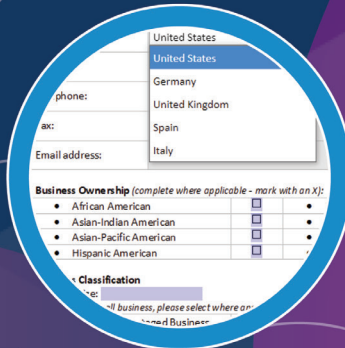

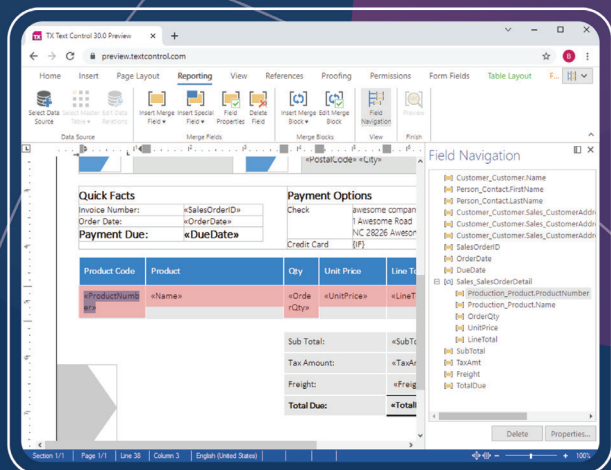

Integrate PDF workflows into your business applications. Cover the complete PDF document workflow from creating the document to processing incoming documents in business applications.

Document Collaboration

Deploy and share documents for viewing and collaboration. Mark up documents with stamps, notes, text, drawings and trackable comments.

Electronic Signatures

Create and request signatures, sign documents and validate executed PDF documents.

Actipro WPF Studio

UI controls for building beautiful desktop apps.

Publisher: Actipro Software | Category: Presentation Layer | ★★★★★

Includes advanced docking windows, MDI, charts, gauges, Ribbon, property grids, tree controls, folder/file browsers, robust editors, auto-completion, masked editing, and code editing.

Docking & MDI for WPF

A complete docking tool window and multiple document interface solution. End users can drag and dock windows wherever they please, and persist their layout customizations. Contains docking window and MDI capabilities found in popular IDEs.

Code Editing in Your Apps

SyntaxEditor is a powerful text editing control that is packed with features for efficient code editing, including syntax highlighting, code outlining, parsing, line numbers and block selection.

Charts for WPF

Many chart types are supported, from basic line and bar charts to stacked area charts. The chart control includes numerous useful features such as multiple series, labels, legends, stacking, and customizable palettes.

Prices from 570,00 €
www.componentsource.com/actipro-wpf-studio

WPF User Interface Controls

Over 100 WPF controls and components are available in an assortment of products that improve your application's UI with rich features and functionality.

Office-Inspired UI

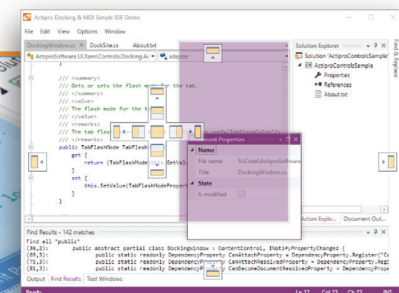

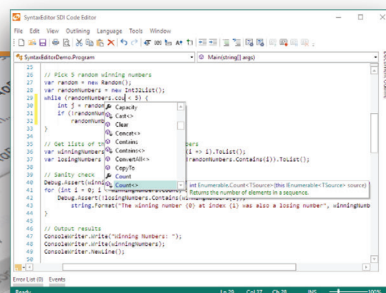

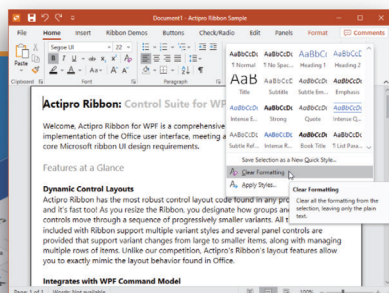

Duplicate the appearance and functionality of modern Office applications, harnessing a familiar interface for your end users.

Leading Code Editor

SyntaxEditor is the premier syntax-highlighting code editor control for .NET UI platforms, offering most of the features found in the Visual Studio editor.

IDEs With Ease

Many of our UI controls have been written with IDE-creation in mind. Powerful docking windows, MDI, property grids, shell controls, and editors are available.

List & Label Enterprise Reporting Edition

Build customized reports for desktop & Web apps.

Publisher: combit | Category: Reporting | ★★★★★

List & Label offers a powerful reporting engine, flexible API, feature-rich desktop designer and fully browser-based Web controls for ASP.NET MVC. Extend your application with comprehensive preview, print and export functions with just a few lines of code.

Data Visualization

Create user-defined reports, dashboards, invoices, labels and forms. The fully customizable end user designers (desktop/Web) offer WYSIWYG convenience and drag & drop support for intuitive use.

Print and Output

Export your reports via a wide range of options (including PDF, DOCX, XLSX, PPTX, XHTML, CSV, RTF, XML, JSON, SVG, PNG and more) with convenient distribution via email or upload.

Interactive Preview

The preview offers a wealth of functions for interactive reporting with drilldown, expandable regions, animations, sorting and dynamic data filtering via report parameters.

Highcharts JS

A modern SVG-based, multi-platform charting library.

Publisher: Highsoft | Category: Charts | ★★★★★

Easily add interactive charts to Web and mobile projects. The libraries work with any back-end database or server stack and data can be given in any form, including CSV, JSON or loaded and updated live.

Touch and Mobile-optimized

Multi-touch gesture support allows for a native experience on mobile and touch screens. Touch gestures include single touch-drag for data inspection, multi-touch for zooming, and more.

Big Data Ready

When your need to render thousands or millions of data points in the browser, the WebGL-powered boost module delivers incredible speed.

Debugger

The Highcharts Debugger helps you speed up development by providing instantaneous warnings and error reports for your charts. The error messages provide clear instructions on how to resolve your issue.

Prices from 470,00 €
www.componentsource.com/highcharts

Make your data come alive

Easily add interactive, responsive charts to your website and mobile platform.

Tokyo Climate

Highcharts JS

Used by hundreds of thousands of developers and over 80 out of the world's 100 largest companies, Highcharts is the simplest, yet most flexible charting API on the market.

Car Rental Schedule

Highcharts Gantt JS

A robust JavaScript library that makes it easy for developers to build interactive charts for allocating, coordinating, and displaying tasks, events and resources along a timeline.

USD to EUR Exchange Rate Over Time

Highcharts Stock JS

Create stock or timeline charts in pure JavaScript. Includes technical indicators and sophisticated navigation options like a small navigator series, preset date ranges and scrolling.

World Population Density

Highcharts Maps JS

Build interactive maps to display sales, election results or any other information linked to geography. Perfect for standalone use or in dashboards in combination with Highcharts!

HIGHCHARTS
