/n software Red Carpet Subscription

Top 50 Product | Top 25 Publisher | Enterprise Partner

A comprehensive suite of Internet components. Any protocol, any platform, any IDE.

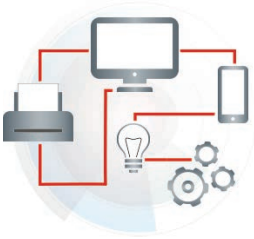

Publisher: /n software | Category: Communication & Messaging | ★★★★★

Components for every major protocol from FTP to IMAP to SNMP, SSL and SSH security, S/MIME encryption, Digital Certificates, Credit Card Processing, Bluetooth Low Energy, Internet of Things (IoT), and e-business (EDI) transactions.

Secure SSH Connectivity

Easily integrate Secure Shell (SSH) security into your Internet applications. IP*Works! SSH includes SSH-enabled client, server and proxy components that support strong SSH encryption and advanced cryptography.

Internet of Things (IoT)

Easily implement Internet of Things (IoT) communications protocols in your applications on any platform with this lightweight set of components. It helps you easily communicate between networked devices.

Cloud Keys Library

Securely manage keys and secrets with popular cloud-based key management services such as Amazon KMS, Amazon Secrets, Azure Key Vault, Google KMS, and Google Secret Manager.

SFTP Drive

Top 25 Publisher

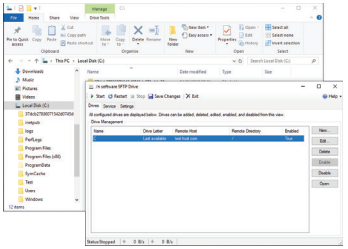

Enterprise Partner

Mount remote file systems as Windows drives via SFTP.

Publisher: /n software | Category: Storage

A powerful solution for accessing remote resources as if they were local drives, eliminating the hassle of having to download and upload remote files you need to access and work with.

Easy and Secure

SFTP Drive is very easy to set-up and start using. Simply use the intuitive installer, enter your connection credentials, and begin working with your remote files in a matter of minutes.

Highly Flexible

Run SFTP Drive as a Windows service or as a desktop application. Upload and download files via your favorite file manager, such as Windows Explorer. Includes support for multiple drive configurations.

Works with YubiKey

SFTP Drive is YubiKey compatible and has been verified by Yubico. In addition to the SFTP security the drive provides, YubiKey allows you to further protect your remote files with hardware-backed authentication.

/n software

Prices from $ 28.42

www.componentsource.com/sftp-drive

SFTP Drive

An easy-to-use utility that mounts remote file systems as Windows Drives via SFTP. Once connected, you can browse and work with files as if they were stored on your local machine.

S3 Drive

Easily connect to any Amazon S3 compatible storage service via a local virtual drive. Browse and interact directly with your remote files without creating local copies.

AES Drive

An easy-to-use utility that keeps files securely encrypted on disk. Your decrypted files are available at your fingertips - yet always remain encrypted on disk.

Aspose.Total for .NET

#4 Product | #3 Publisher | Enterprise Partner

Open, create, convert, print and save files from within your own applications.

Publisher: Aspose | Category: Document & Text Processing | ★★★★★

Aspose.Total for .NET is a compilation of every .NET component offered by Aspose. It allows you to create a wide range of applications that work with file formats from Excel, Word, PowerPoint, Project, OneNote, Outlook, Visio and PDF.

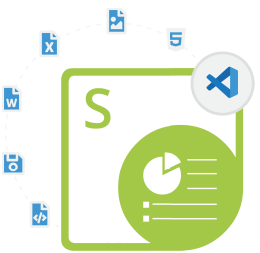

Aspose.PDF for .NET

A PDF document processing and parsing API that enables .NET applications to read, write and manipulate PDF files without Adobe Acrobat. The API helps you convert PDFs to multiple formats as well as transform them to raster and vector images.

Aspose.BarCode for .NET

Allows developers to quickly and easily add robust and reliable barcode generation and recognition functionality to their Microsoft .NET applications. It includes support for 60+ 1D, 2D and Postal barcode symbologies.

Aspose.Slides for .NET

Enables any .NET application to read, write, modify and convert PowerPoint documents, without the need for Microsoft PowerPoint. It can render presentation slides to PDF, XPS, HTML, images and PDF Notes.

IMPORTANT: READ CAREFULLY: This Aspose End User License Agreement ("**Agreement**") is a legal agreement between You and Aspose for the materials accompanying this Agreement, which may include computer software, printed materials, and "on-line" "online" or electronic documentation and resource files, project and solution files for Aspose Products. The Product is licensed, not sold.

BY INSTALLING, DOWNLOADING, COPYING OR OTHERWISE USING THE PRODUCT, YOU AGREE TO BE BOUND BY THE TERMS OF THIS AGREEMENT. IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, DO NOT INSTALL, DOWNLOAD, COPY OR USE THE PRODUCT.

The Product is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. Aspose or its suppliers own the title, copyright and other intellectual property rights in the Product. The Product is licensed, not sold.

1. **DEFINITIONS.**

1.1. **"API" or "Application Programming Interface"** means a publicly accessible interface defining the ways by which an application program may request services from libraries and/or software.

1.2. **"Aspose" or "Company"** means Aspose Pty Ltd and its subsidiaries which includes the brands Aspose, Conholdate and GroupDocs.

Render, Print or View Files

Aspose.Words for .NET has its own rendering engine specifically designed to render and print documents with high fidelity. You can render (draw) any page onto a .NET graphics object while specifying size and zoom level.

Mail Merge and Reporting

Mail Merge is a popular feature for quickly and easily creating documents such as letters, labels and envelopes. Aspose.Words for .NET enables you to generate documents from templates with mail merge fields.

Compare Documents

Instead of manually searching for differences between documents, or between different versions of the same document, you can use Aspose.Words for .NET to show content and formatting changes in headers and footers, tables and more.

ActiveReports.NET

#3 Product | #2 Publisher | Enterprise Partner

A premium .NET reporting solution for Web and desktop applications.

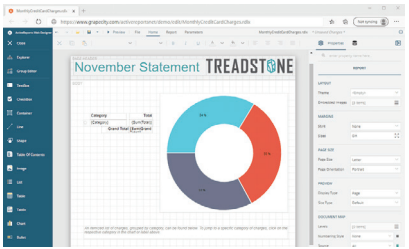

Publisher: GrapeCity | Category: Reporting | ★★★★½

Design and deliver powerful reports with intuitive, reliable, and user-friendly report designers and controls for .NET Core, .NET 6, ASP.NET, ASP.NET MVC, WinForms, and WPF.

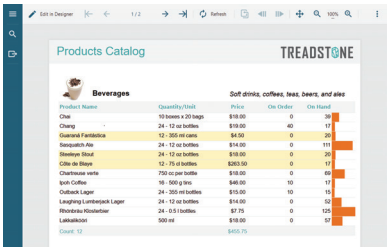

Visual Studio Designer

Create report layouts in Visual Studio and edit them either at design time, visually, through code, script, or regular expressions.

End-User Report Designer

The End-User Report Designer offers users the functionality to create virtually any report. They can create periodic letters, regulatory forms, invoices, financial portfolios, rich cross-tab or pivot table reports, all in the same web designer.

Dynamic Reporting

You can use expressions to dynamically control runtime behavior including conditional formatting for reports. Expressions are simple scripts that you can use to calculate values, concatenate strings or set a condition under which a style is applied.

InstallAware Studio Admin

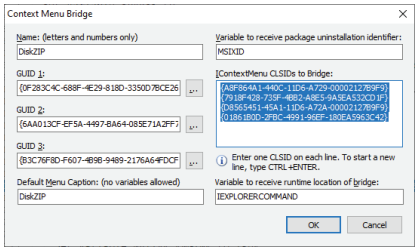

Top 50 Publisher

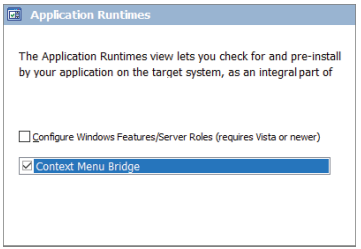

Enterprise Partner

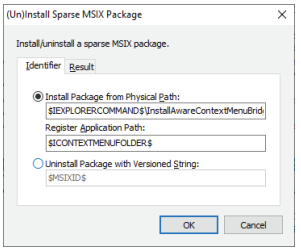

Premier software installation and lightning fast application repackaging for Windows.

Publisher: InstallAware | Category: Development & Deployment

Visually create MST transforms, repackage applications without needing clean machine captures, plus programmatically emit and build setups using automation libraries.

Paste Existing IContextMenu CLSIDs

That's literally all it takes - no coding/debugging necessary, not even a recompile. Your context menus will show for their intended file type and folder targets, all with their originally coded dynamic captions.

Windows 11 Context Menu Bridge

It's difficult get your context menus showing at the top-level of the new Windows 11 File Explorer. InstallAware can easily bridge your existing IContextMenu implementations over to Windows 11.

Sparse MSIX Packages Included

Automatically unregister your new menus, creating the necessary "sparse MSIX" packages, all with just a single click. Save yourself the effort of learning three new development stacks to get your menus showing.

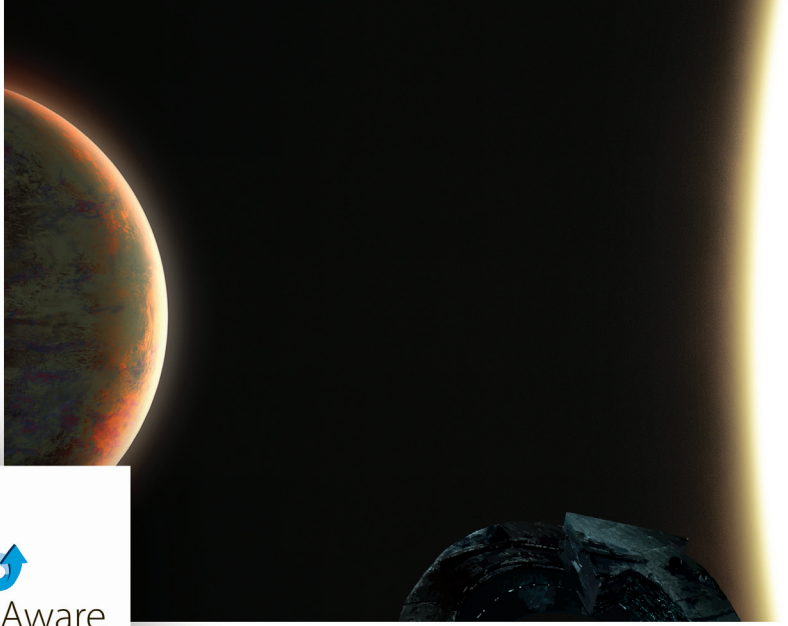

InstallAware

Prices from $ 4,702.82

www.componentsource.com/installaware-studio-admin

New In InstallAware X15:
CONTEXT MENU BRIDGE!

Wouldn't it be great if you could just paste your existing IContextMenu CLSID's into a text box and then have them show at the very top-level of the new Windows 11 context menu as first class citizens - without having to learn anything about IExplorerCommand and sparse MSIX packages (and their registration/removal)? Now you can!

InstallAware

ETHEREUM PAYMENTS, BLOCKCHAIN RECORDS
Sell your software for cryptocurrency with instant & free transaction lookup.

WINDOWS 11 MICA, WINDOWS 10 ACRYLIC, WINDOWS 7/VISTA GLASS
A single setup looks its best on all platforms with just a straight recompile using version X15.

FULLY UPDATED WINDOWS 11 FEATURES AND SERVER 2022 ROLES
Names and dependencies listed exactly as seen in each version of Windows ever released!

FULL-STACK ARM64 SUPPORT (INCLUDING SETUP CAPTURES)
Powered by a 100% runtime-free, super-stable & scalable setup engine that runs everywhere.

HOSTING ON THE TRUE CLOUD THAT NOBODY OWNS
This isn't an opaque monopolist/duopolist's backyard. Host on BitTorrent, use Magnet links.

InstallAware is the most flexible platform for traditional and agile development teams creating Windows and Azure software installers, as well as MSIX Universal Windows Platform, Microsoft App-V Virtualization, and agentless/royalty-free InstallAware Virtualization packages.

Ship a smart installer delivering payloads to native X86, AMD64, and ARM64 locations from a single setup binary, supporting all Windows & Server versions ever released!

www.componentsource.com/installaware

InstallAware Studio

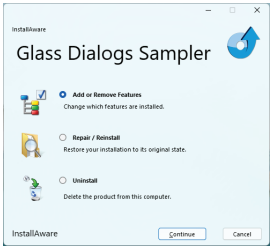

Top 50 Publisher

Enterprise Partner

True rapid Windows Installer development productivity.

Publisher: InstallAware | Category: Development & Deployment

Create installations that target Windows 11/Server 2022 (including ARM64) through Windows XP all from a single setup binary.

New Mica Material on Windows 11

Mica is Windows 11's newest battery friendly, smoothly pleasing user interface ethos. Simply recompile and your dialogs will automatically render using Mica Material.

Aero Glass

Windows Vista was the first version to introduce this over-the-top translucency effect. No matter which operating system you use, your setups will always look their best – with just a single source and binary.

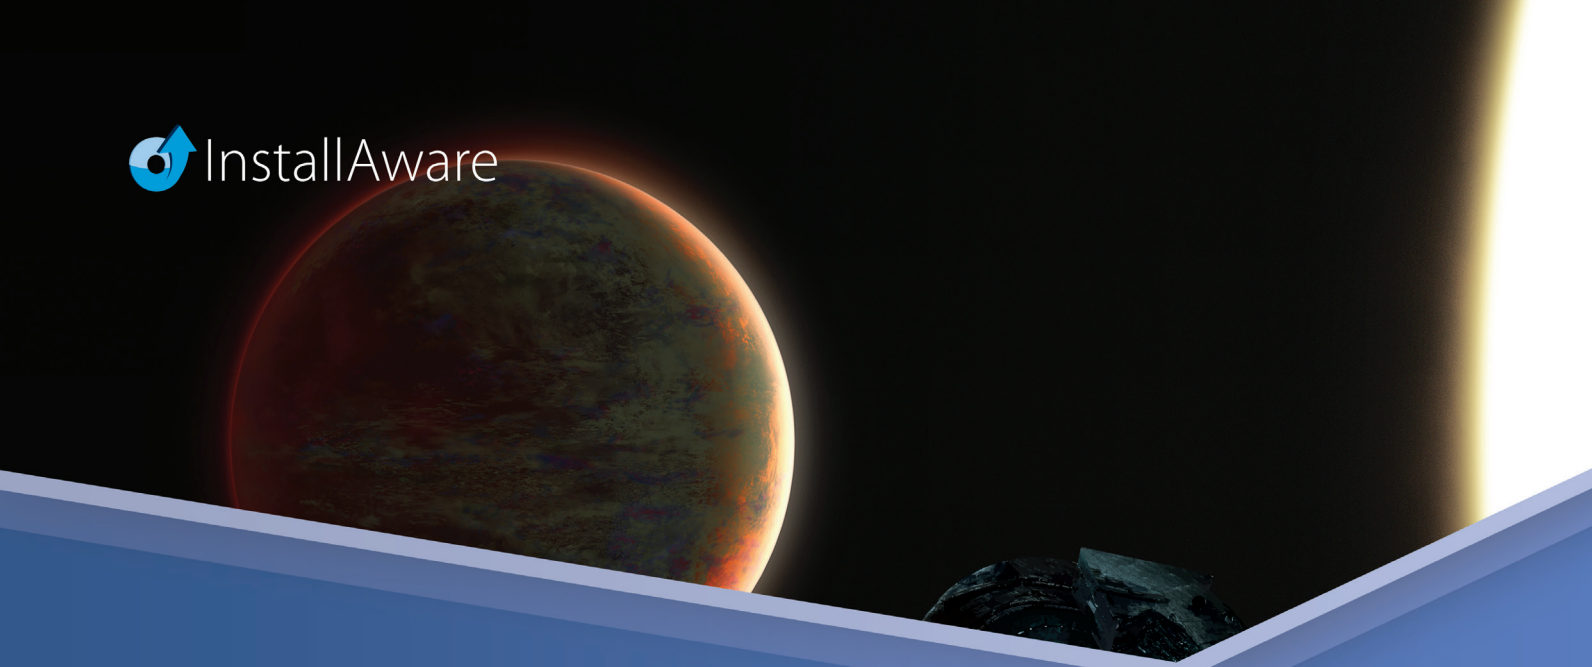

Dark Mode for Windows 11/10

Dark Mode for Windows was first introduced with Windows 10. The same setup renders in Dark Mode when the operating system itself is in Dark Mode. No project changes are required.

InstallAware

Prices from $ 2,350.82

www.componentsource.com/installaware-studio

About InstallAware

InstallAware Software, founded in 2003, is the leading Cloud Infrastructure Company with its laser sharp focus on bullet-proof enterprise software deployment. InstallAware has been recognized by multiple awards from Microsoft, SDTimes "Leader of the Software Development Industry", Visual Studio Magazine Reader's Choice, ComponentSource, and WindowsITPro, among others.

InstallAware X15 is available for immediate download at:

Syncfusion

FLEX & SCALE / Project, Division, and Global licenses available!

Syncfusion Essential Studio for Blazor

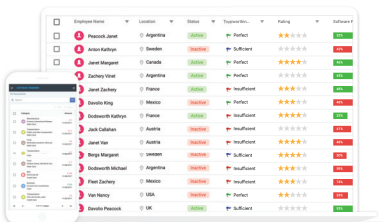

Top 25 Publisher

Enterprise Partner

A comprehensive, native Blazor UI components library.

Publisher: Syncfusion | Category: Presentation Layer | ★★★☆☆

Includes 70+ components that work seamlessly with Blazor Server side and Client side (Blazor WebAssembly) projects. Every component is fine-tuned to work with a high volume of data.

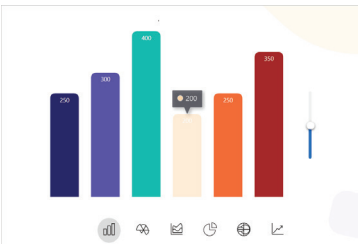

Fast & Powerful Grid Component

A feature-rich component useful for displaying data in a tabular format. Its wide range of functionalities include data binding, editing, Excel-like filtering, custom sorting, aggregating rows, selection and support for Excel, CSV and PDF formats.

Flexible Appointment Handling

Allow users to manage their time efficiently. It facilitates easy resource scheduling, rescheduling appointments using editor pop-ups, drag and drop, and resizing actions.

Beautiful and Interactive Charts

Contains a rich gallery of charts and graphs, ranging from line to financial that cater to all charting scenarios. Its high performance helps render large amounts of data quickly.

Syncfusion

Prices from $ 975.10

Kendo UI

Top 100 Product | Top 10 Publisher | Enterprise Partner

Everything you need to build modern, beautiful, responsive apps.

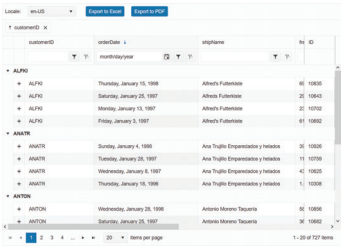

Publisher: Telerik | Category: Presentation Layer | ★★★★☆

A collection of JavaScript UI components with libraries for jQuery, Angular, React, and Vue. Quickly build eye-catching, high-performance, responsive Web applications - regardless of your JavaScript framework choice.

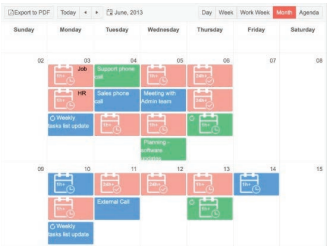

Charts

The Chart components offer a rich variety of charts and series types. You can use each series type independently or add multiple series to a single chart, rendered together. You can also show large data views in limited space by enabling pan and zoom.

Data Grid

Let users slice and dice their data by providing the familiar Microsoft Excel-like UI to perform paging, single or multi-column sorting, filtering or grouping, all through quick configuration options.

Scheduler

The Scheduler component offers an in-app calendar experience similar to Microsoft Office or Google Calendar. It comes with several essential user features including different views, support for multiple resources, time zone conversions and more.

The Most Powerful Software Developer Tools Collection for Any Platform & Technology

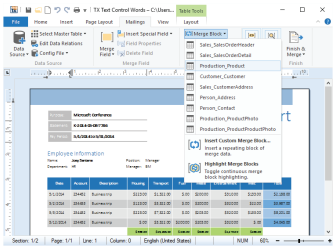

TX Text Control .NET for Windows Forms

Top 50 Publisher | Enterprise Partner

Add Microsoft Word look and feel editing to your Windows Forms applications.

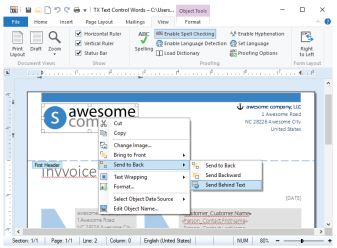

Publisher: Text Control | Category: Word Processing | ★★★★★

TX Text Control .NET for Windows Forms is a royalty-free, fully programmable rich edit control that offers developers a broad range of word processing features in a reusable component for Visual Studio.

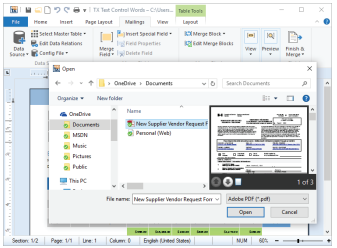

Reporting and Mail Merge

Text Control combines the power of a programmable reporting tool and WYSIWYG word processor. Create mail merge and table reports, master-detail and sub-reports based on Microsoft Word compatible report templates.

Word Compatible File Formats

Modify Microsoft Word documents or create Adobe PDF documents from your application. Supports a range of word processing formats (RTF, DOC, DOCX, HTML, XML, PDF) and image formats (GIF, PNG, JPG, BMP, WMF, EMF, TIF).

Import Adobe PDF Documents

Import PDF documents, and view, edit or convert them to RTF, DOC, DOCX or PDF/A. Imported PDFs can be modified just like any other format. The fully featured API can be used to change the content or to search on the document.

TEXT CONTROL

Prices from $ 1,616.02

www.componentsource.com/tx-text-control-net-professional

TEXT CONTROL

Rethinking Documents

Integrate document editing, creation, collaboration and reporting into your applications.

www.componentsource.com/textcontrol

TX Text Control .NET Server for ASP.NET

Top 50 Publisher | Enterprise Partner

Add document processing to your ASP.NET Core, ASP.NET and Angular applications.

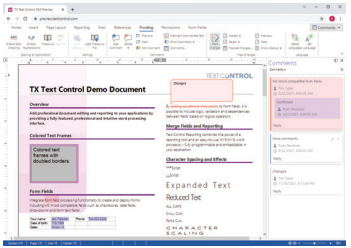

Publisher: Text Control | Category: Word Processing | ★★★★★

Integrate fully-featured document editing and viewing into your Web applications. Combine the power of a reporting tool and an easy-to-use WYSIWYG word processor, which is fully programmable and embeddable, in your ASP.NET application.

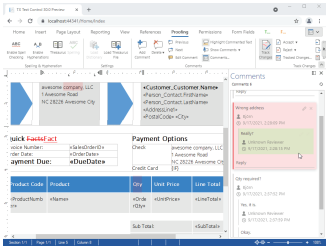

Electronic Signatures

Includes a complete set of tools that help to integrate electronic signature processes into business applications. You can create and request signatures, sign documents and validate executed PDF documents.

Document Editor

Integrate a powerful, Microsoft Word compatible document editor that runs in all browsers. Based on modern browser technology, TX Text Control provides professional, out-of-the-box document editing functionality for your business applications.

Comments

Different authors can add comments to all text ranges and attach Microsoft Word-compatible comments to tracked changes. Comments can be imported and exported from and to Word formats including Office Open XML, DOC and RTF.

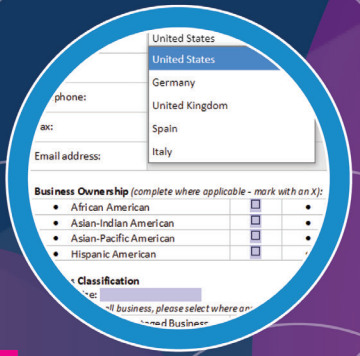

TEXT CONTROL

Prices from $ 4,114.04

www.componentsource.com/tx-text-control-net-server

TEXT CONTROL

Our Digital Document Processing Core Technologies

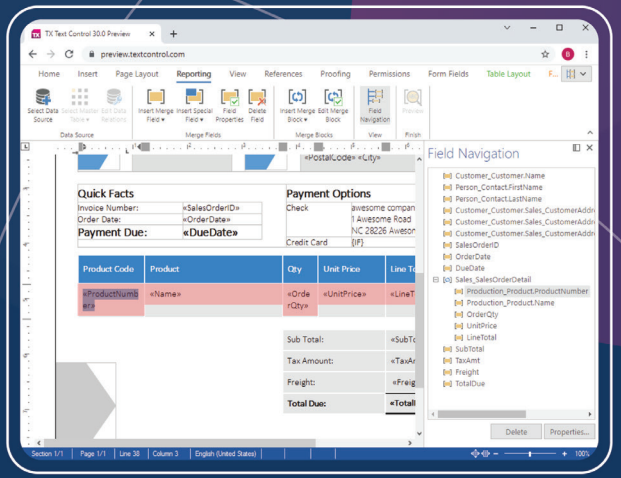

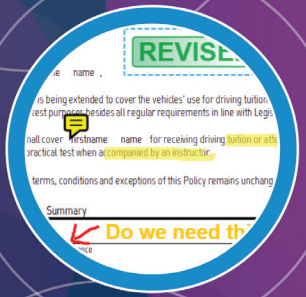

PDF Processing

Integrate PDF workflows into your business applications. Cover the complete PDF document workflow from creating the document to processing incoming documents in business applications.

Document Editing

Integrate a fully-featured, MS Word compatible document editor to create and edit documents.

Document Collaboration

Deploy and share documents for viewing and collaboration. Mark up documents with stamps, notes, text, drawings and trackable comments.

Electronic Signatures

Create and request signatures, sign documents and validate executed PDF documents.

Actipro WPF Studio

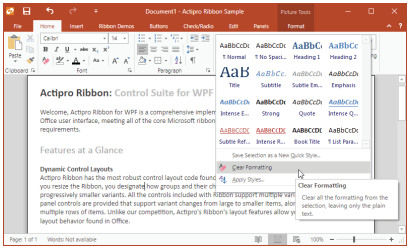

Top 50 Publisher

Corporate Partner

UI controls for building beautiful desktop apps.

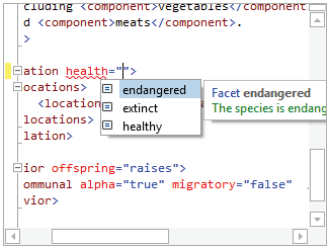

Publisher: Actipro Software | Category: Presentation Layer | ★★★★★

Includes advanced docking windows, MDI, charts, gauges, Ribbon, property grids, tree controls, folder/file browsers, robust editors, auto-completion, masked editing, and code editing.

Ribbon Control

Use the Ribbon control to reproduce an Office-like user interface with split buttons, galleries and mini-toolbars. Various layout controls govern where items are placed within a ribbon as it decreases in width.

SyntaxEditor

Add a powerful Microsoft Visual Studio-like code editing experience to your applications. Includes all the advanced features found in popular code editors for most popular languages, or custom build your own to handle any proprietary language.

Easily Generate Rich Charts

Actipro Charts supports many chart types from basic line and bar charts to complex stacked area charts. It includes useful features such as multiple series, labels, legends, stacking, and customizable palettes.

actipro

Prices from $ 636.02

www.componentsource.com/actipro-wpf-studio

WPF User Interface Controls

Over 100 WPF controls and components are available in an assortment of products that improve your application's UI with rich features and functionality.

Office-Inspired UI

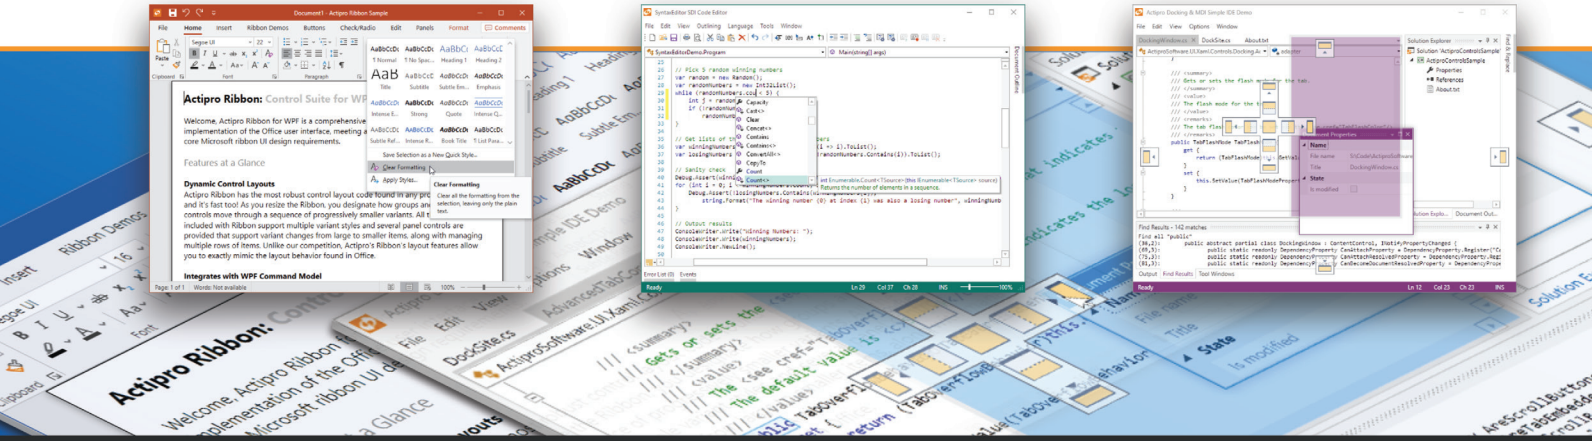

Duplicate the appearance and functionality of modern Office applications, harnessing a familiar interface for your end users.

Leading Code Editor

SyntaxEditor is the premier syntax-highlighting code editor control for .NET UI platforms, offering most of the features found in the Visual Studio editor.

IDEs With Ease

Many of our UI controls have been written with IDE-creation in mind. Powerful docking windows, MDI, property grids, shell controls, and editors are available.

Highcharts JS

Top 50 Product | Top 10 Publisher | Corporate Partner

A modern SVG-based, multi-platform charting library.

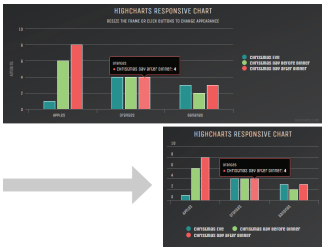

Publisher: Highsoft | Category: Charts | ★★★★★

Easily add interactive charts to Web and mobile projects. The libraries work with any back-end database or server stack and data can be given in any form, including CSV, JSON or loaded and updated live.

Export and Print Charts

With the exporting module enabled, your users can export their charts to PNG, JPG, PDF or SVG format at the click of a button, or print the chart directly from the Web page.

Responsive Across Devices

Default responsiveness goes beyond fitting the chart to the dimensions of its container, but automatically finds an optimal placement for non-graph elements such as legends and headings.

All the Chart Types you Need

Display your data in the most suitable way. Highcharts supports line, spline, area, column, bar, pie, scatter, gauge, polar, range, heat map, waterfall, and many more chart types.

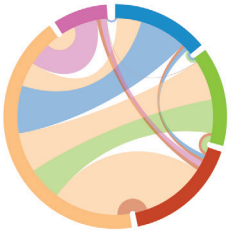

HIGHCHARTS

Prices from $ 343.00

www.componentsource.com/highcharts

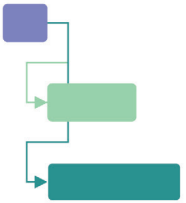

Simply Visualize

Rock-solid and incredibly flexible charting library made for developers.

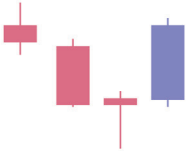

Highcharts JS

Used by hundreds of thousands of developers and 80 out of the world's 100 largest companies, Highcharts is the simplest, yet most flexible charting API on the market.

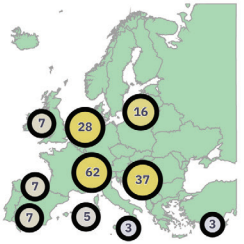

Highcharts Gantt

A robust JavaScript library that makes it easy for developers to build interactive charts for allocating, coordinating, and displaying tasks, events and resources along a timeline.

Highcharts Stock

Create stock or timeline charts in pure JavaScript. Includes technical indicators and sophisticated navigation options like a small navigator series, preset date ranges and scrolling.

Highcharts Maps

Build interactive maps to display sales, election results or any other information linked to geography. Perfect for standalone use or in dashboards in combination with Highcharts.

HIGHCHARTS
