/n software Red Carpet Subscription

Top 100 Product | Top 25 Publisher | Enterprise Partner

A comprehensive suite of Internet components. Any protocol, any platform, any IDE.

Publisher: /n software | Category: Communication & Messaging | ★★★★★

Includes libraries for every major communications and security protocol (from FTP to IMAP, TLS and SSH), available in all major development platforms, all in one convenient package.

VoIP Components

Components designed to facilitate common Voice over Internet Protocol (VoIP) operations in your applications. Quickly integrate functionality to establish outgoing calls, accept incoming calls and route calls based on your custom Interactive Voice Response (IVR) menus.

Cloud SMS

Send and receive SMS messages using popular cloud services including Twilio, Vonage, Clickatell and others. The single SMS component implements the same API for all supported services, which simplifies failover or cost balancing.

Encryption Library

Encrypt and decrypt files, emails, documents and messages using major cryptographic standards, including AES, S/MIME, OpenPGP, TwoFish and RSA. Complete with X.509 and OpenPGP certificate management.

/n software

Prices from $ 1,919.04

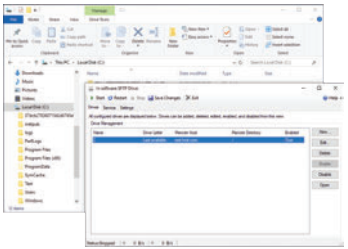
SFTP Drive

Top 25 Publisher | Enterprise Partner

Mount remote file systems as Windows drives via SFTP.

Publisher: /n software | Category: Storage | ★★★★★

A powerful solution for accessing remote resources as if they were local drives, eliminating the hassle of having to download and upload remote files you need to access and work with.



Highly Flexible

Run SFTP Drive as a Windows service or as a desktop application. Upload and download files via your favorite file manager, such as Windows Explorer. Includes support for multiple drive configurations.

Works with YubiKey

SFTP Drive is YubiKey compatible and has been verified by Yubico. In addition to the SFTP security the drive provides, YubiKey allows you to further protect your remote files with hardware-backed authentication.

Easy and Secure

SFTP Drive is very easy to set-up and start using. Simply use the intuitive installer, enter your connection credentials, and begin working with your remote files in a matter of minutes.

/n software

Prices from $ 48.02

www.componentsource.com/sftp-drive

Starter Edition Free for Personal Use and Commercial Use

AES Drive

Transparent encryption of local folders and files. Mounts the encrypted location as a local drive. Your decrypted files are available at your fingertips, yet always remain encrypted on disk.

S3 Drive

Map any S3-compatible storage as a local drive. Browse and interact directly with your remote files without creating a local copy. The easiest way to manage objects in S3 storage!

SFTP Drive

Connect to any SFTP server as a local drive. Browse and interact directly with your remote files without creating a local copy. The Professional Edition offers more features, including Yubikey support.

SFTP Server

A lightweight high performance SSH File Server designed for security and simple management. Professional Edition features encryption at rest. FIPS 140-2 support can be enabled.

Enterprise licensing and private-label options are also available.

Aspose.Total for .NET

#3 Product | #3 Publisher | Enterprise Partner

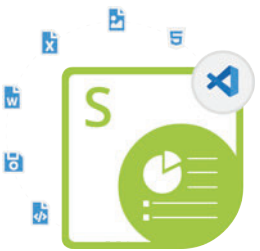
Open, create, convert, print and save files from within your own applications.

Publisher: Aspose | Category: Document & Text Processing | ★★★★★

Aspose.Total for .NET is a compilation of every .NET component offered by Aspose. It allows you to create a wide range of applications that work with file formats from Excel, Word, PowerPoint, Project, OneNote, Outlook, Visio and PDF.

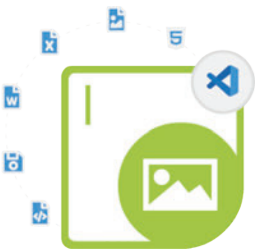
Aspose.Words for .NET

An advanced class library that lets you perform a wide range of document processing tasks directly within your applications. Supports DOC, DOCX, OOXML, RTF, HTML, OpenDocument, PDF, XPS, EPUB and many other formats.



Aspose.Slides for .NET

Enables any .NET application to read, write, modify and convert PowerPoint documents, without the need for Microsoft PowerPoint. It can render presentation slides to PDF, XPS, HTML, images and PDF Notes.



Aspose.Imaging for .NET

Create, load, convert and compress images or photos using this API. The library supports working with graphic primitives, multi-page image processing, image transformation and manipulation.

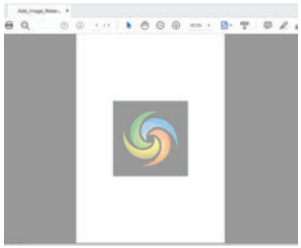
Aspose.PDF for .NET

Top 25 Product | #3 Publisher | Enterprise Partner

Create and manipulate PDF documents without using Adobe Acrobat.

Publisher: Aspose | Category: PDF | ★★★★★

Aspose.PDF for .NET is a set of PDF APIs that enable your .NET applications to read, write and manipulate existing PDF documents. It also allows you to create forms and manage form fields embedded in PDF documents.

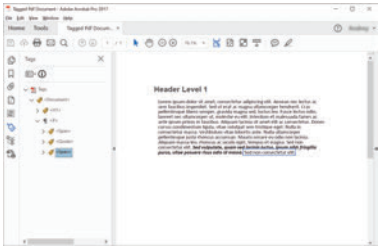


Watermarks

Easily insert or delete, text and image watermarks in PDF files. There are several properties for working with watermarks including: opacity, position, rotation, color, font, image and more. Properties can be easily set using quick API calls.

Create PDFs From Scratch

Use the API to create PDFs from scratch or transform images, XML, XSL-FO, HTML, SVG, PCL, XPS, EPUB or simple text files to PDF. You can also specify XMP metadata, author details, creator details, and title information during PDF generation.



Create Tagged PDFs

Tagged PDF files are used to enhance the reading experience for those who use assistive technologies and screen readers. Aspose.PDF for .NET lets you easily create tagged PDF files and also extract tagged content.

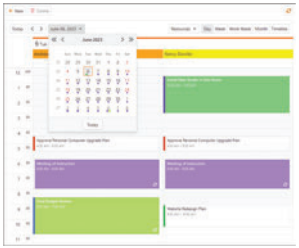
DevExpress DXperience

#2 Product | #1 Publisher | Enterprise Partner

Build applications for Windows, Web, mobile and tablet.

Publisher: DevExpress | Category: Presentation Layer | ★★★★½

Includes DevExpress UI controls for WinForms, ASP.NET, MVC, WPF, ASP.NET Core, JavaScript (jQuery, Angular, React, Vue), Blazor, plus Reporting and CodeRush for Visual Studio.



Blazor Scheduler & Calendar

Easily display a detailed snapshot of events or appointments in your Web application across a single day, week or month. Integrated date navigation buttons make it easy to navigate from one day or one week to the next.

WPF Date Range Control

Allow users to easily specify a date range with input validation and built-in error detection included. This control addresses a variety of usage scenarios - from entering departure/ return dates to modifying range values within custom filters.

WinForms Rich Text Editor

Integrate advanced text editing capabilities into your next project. It includes comprehensive text formatting options, supports mail-merge and ships with a rich collection of end-user options so you can deliver Microsoft Word-inspired functionality with ease.

#1 PUBLISHER 2023

ComponentSource

ActiveReportsJS

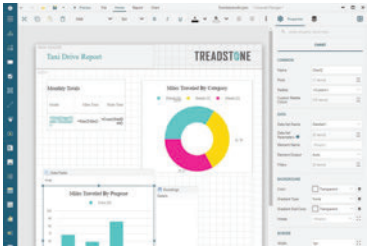
#2 Publisher

Enterprise Partner

JavaScript reporting solution for Web applications.

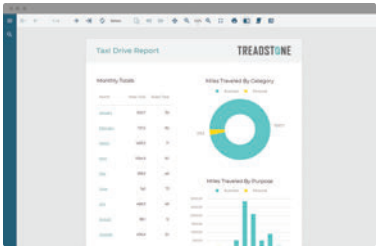
Publisher: GrapeCity | Category: Reporting

A lightweight reporting solution that helps create complex reports using a simple yet rich API. Use ActiveReportsJS with any popular JavaScript framework including Angular, React, and Vue.



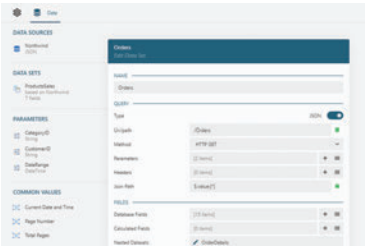
Cross-Platform Tools

Build interactive, customizable reports with a cross-platform standalone designer application. It can be installed on Windows, Mac or Desktop Linux and includes a rich set of data visualization components.



Report Viewer

View reports on all modern browsers using popular JavaScript frameworks. The viewer automatically adjusts to screen size, so you can use it on desktop, mobile and touch devices. Other features include interactivity, exporting, one-touch printing and rendering modes.



Data Binding

Data binding establishes a connection between the report and the data it displays. ActiveReportsJS supports binding to a wide variety of JSON data sources by providing flexible connection configuration at design time and a rich API for advanced use-cases.

GrapeCity

Prices from $ 984.02

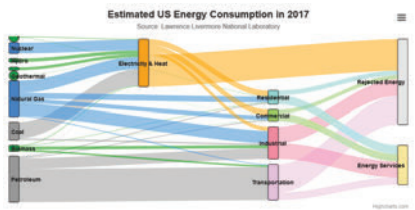
Highcharts Core

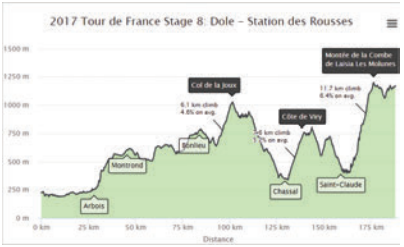
Top 50 Product | Top 25 Publisher | Enterprise Partner

A pure JavaScript library that makes it easy to create responsive and interactive charts.

Publisher: Highsoft | Category: Charts | ★★★★★

Easily add interactive charts to Web and mobile projects. The libraries work with any back-end database or server stack and data can be given in any form, including CSV, JSON or loaded and updated live.





Dynamic and Customizable

The elegant charts render crisp and clear at any resolution and are easily styled using JavaScript or CSS. Highcharts is also extendable and pluggable for experts seeking advanced animations and functionality.

Chart Annotations

Draw simple shapes and text anywhere on the canvas to describe charts or tether them to specific data points. The annotation module also lets you configure toolbars and dialogs to help end-users place annotations on a chart.

Accessibility

Create interactive charts that empower people with disabilities. Users are able to navigate and interact with charts using the keyboard or voice input and they can use sonification to play back charts using sound.

HIGHCHARTS

Prices from $ 360.64

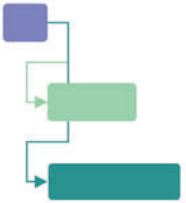
www.componentsource.com/highcharts

Simply Visualize

Rock-solid and incredibly flexible charting library made for developers.

Highcharts Core

Used by hundreds of thousands of developers and 80 out of the world's 100 largest companies, Highcharts is the simplest, yet most flexible charting API on the market.

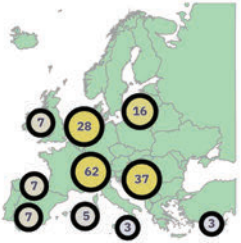


Highcharts Gantt

A robust JavaScript library that makes it easy for developers to build interactive charts for allocating, coordinating, and displaying tasks, events and resources along a timeline.

Highcharts Stock

Create stock or timeline charts in pure JavaScript. Includes technical indicators and sophisticated navigation options like a small navigator series, preset date ranges and scrolling.



Highcharts Maps

Build interactive maps to display sales, election results or any other information linked to geography. Perfect for standalone use or in dashboards in combination with Highcharts.

Highcharts for Python

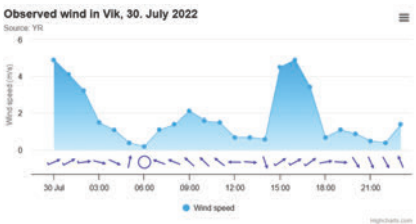
Top 25 Publisher

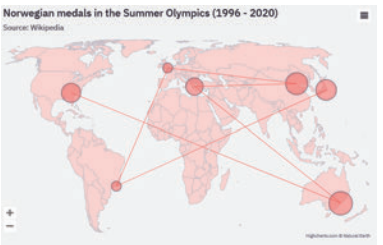
Enterprise Partner

High-end data visualization for the Python ecosystem.

Publisher: Highsoft | Category: Charts

A collection of Python libraries that gives you access to all the rich features of Highcharts Core, Highcharts Stock, Highcharts Maps and Highcharts Gantt via a simple, Pythonic API.





Highcharts Core for Python

Includes the full set of rich options and interactivity provided by the Highcharts JavaScript libraries. The toolkit makes it easy to tap into Highcharts features with full support for rich callback functions and SVG extensions.

Highcharts Stock for Python

Provides a Python wrapper for the Highcharts Stock JavaScript data visualization library. It includes 40+ technical indicators, in-chart navigation, timelines and rich tools for in-chart analysis and annotation of data.

Highcharts Maps for Python

Includes full support for the Highcharts Maps JavaScript library. It comes with full TopoJSON and GeoJSON support, rich map projection and visualization capabilities and native integration with GeoPandas for GIS data analysis.

HIGHCHARTS

Prices from $ 468.83

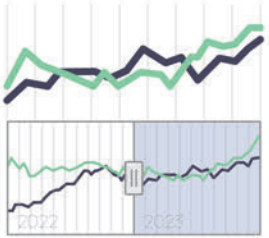
www.componentsource.com/highcharts-python

Highcharts Stock

Build informative stock and financial charts with all the power of Highcharts

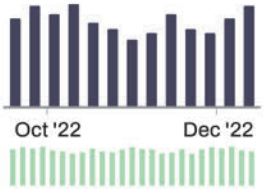
40+ Tech Indicators

Use a wide range of technical indicators including SMA, MACD, CCI, RSI, Stochastic, Bollinger Bands, Pivot Points, PSAR, and Ichimoku Kinko Hyo.



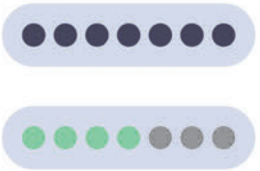
Financial Navigation

Chart navigation options include small navigator series, preset date ranges, date picker, adjustable panes, scrolling and panning.



Data Grouping

Group data into optional groups including days, weeks and months with Highcharts Stock's blazingly-fast data grouping feature.



Data Security

Use Highcharts Stock on your intranet or password protected website without worrying about anyone siphoning your data.

InstallAware Multi-Platform

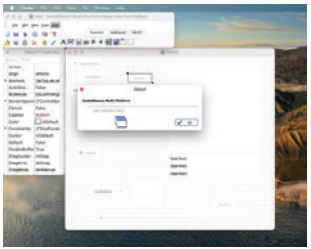
Top 50 Publisher

Enterprise Partner

Build installers for Linux, macOS and Windows from a single source.

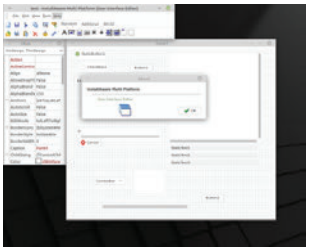
Publisher: InstallAware | Category: Development & Deployment

Run and edit projects directly on Intel x86, AMD64/x86-64, SPARC, ARM or AArch64 platforms. Compile setups that run on any target, using any IDE, on any platform.



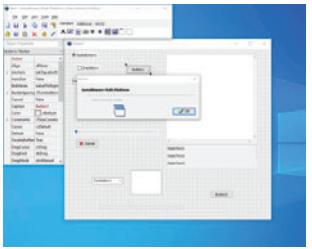
InstallAware Import

Directly load all of your existing setup projects. Even your dialogs are ported through - with intelligently replaced controls where necessary. This means you can recompile all your existing InstallAware setups for macOS and Linux targets, virtually verbatim.



Setup Capture

Setup capture for macOS and Linux has arrived. Discover changes made by any process, or any package/setup. Leverage the multi-core engine, using all of your available CPU cores for the fastest possible snapshot comparisons.



Native Binaries

Support Linux, macOS and Windows with zero dependencies (no Java). Create a single setup script (and dialogs) that look, feel and work the same on each compiled target.

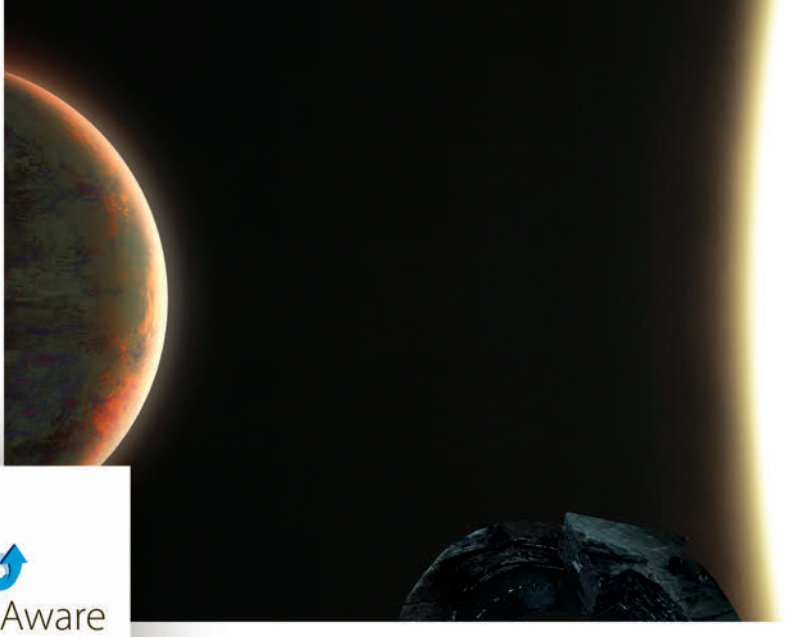
InstallAware

Prices from $ 3,526.82

www.componentsource.com/installaware-multi-platform

New in InstallAware 22H2
MACOS & LINUX BUILDS!

Open your projects directly using the native InstallAware Multi IDE, included in all InstallAware 22H2 plans featuring 3 years of maintenance, Gold Support, and a Floating License. Load all your scripts, enjoy pixel-perfect renderings for your custom dialogs. Ship native code builds (no Java), enjoy native setup captures for macOS & Linux!



InstallAware

CRITICAL DLL PRELOAD, ASLR, AND DEP MITIGATIONS
A straight recompile with InstallAware 22H2 to secure all your setups.

WINDOWS 11 MICA, WINDOWS 10 ACRYLIC, WINDOWS 7/VISTA GLASS
New Untinted and Acrylic Mica styles for Windows 11 22H2, with graceful downlevel fallbacks.

FULLY UPDATED WINDOWS 11 22H2 FEATURES AND SERVER 2022 ROLES
Names and dependencies listed exactly as seen in each version of Windows ever released!

FULL-STACK ARM64 SUPPORT (INCLUDING SETUP CAPTURES)
Powered by a 100% runtime-free, super-stable & scalable setup engine that runs everywhere.

ENJOY UP TO 50% FASTER BUILDS & IDE
Our work on InstallAware Multi trickles down as even more speed and scalability for Windows!

InstallAware is the most flexible platform for traditional and agile development teams creating Windows and Azure software installers, as well as MSIX Universal Windows Platform, Microsoft App-V Virtualization, and agentless/royalty-free InstallAware Virtualization packages.

Ship a smart installer delivering payloads to native X86, AMD64, and ARM64 locations from a single setup binary, supporting all Windows & Server versions ever released!

InstallAware Studio Admin

Top 50 Publisher | Enterprise Partner

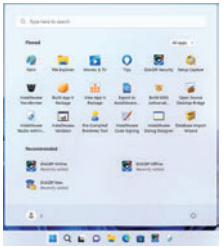
Premier software installation and lightning fast application repackaging for Windows.

Publisher: InstallAware | Category: Development & Deployment

Visually create MST transforms, repackage applications without needing clean machine captures, plus programmatically emit and build setups using automation libraries.

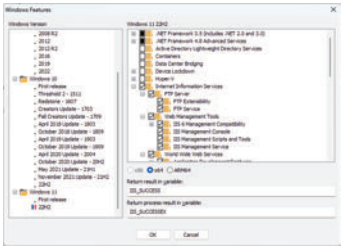
Mica, Acrylic and Glass

InstallAware helps you build setups that look their best on all Windows platforms, from Windows 11 all the way down to XP. Using the dialog editor, you can customize pre-built setup themes and also design your own themes from scratch.



Prime Desktop Real Estate

InstallAware can programmatically pin your apps to the Windows Start Menu (in addition to the Taskbar). This is the best exposure you can provide your application, since it is directly accessible without end-users having to navigate to the All apps sub-menu first.



x86, AMD64 and AARCH64

InstallAware allows you to build a single setup capable of delivering native payloads to all CPU architectures - including 100% accurate, GUI-based Windows Feature/Server Role configuration.

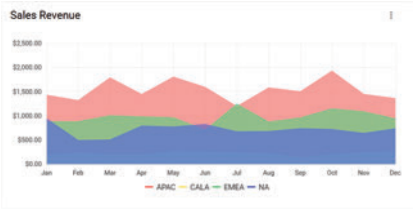
Kendo UI

Top 50 Product | Top 10 Publisher | Enterprise Partner

Everything you need to build modern, beautiful, responsive apps.

Publisher: Telerik | Category: Presentation Layer | ★★★★½

A collection of JavaScript UI components with libraries for jQuery, Angular, React, and Vue. Quickly build eye-catching, high-performance, responsive Web applications - regardless of your JavaScript framework choice.



TreeList

Display hierarchical data in a tree view that supports sorting, filtering and paging. Each column can be resized, reordered by dragging and dropping or hidden. End users can also create, update and delete items when editing is enabled.

Grid Virtual Scrolling

Easily enable both row and column virtualization. Users maintain a smooth scrolling experience in both horizontal and vertical scrolling even when data sets are very large. You can also use virtual scrolling in combination with grouped data and responsive columns.

Charting

Display remote or local data in professionally designed charts of virtually any type. Easily integrate these charts into your web page and customize the look and feel with flexible properties for axis, data series, appearance and more.

Modern UI Made Easy

Build feature-rich, modern experiences for Web, Mobile and Desktop, faster than ever with Telerik and Kendo UI components

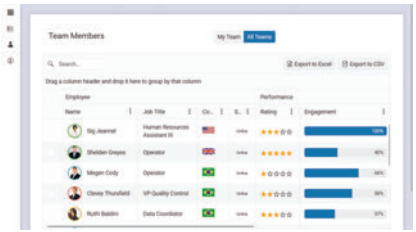
Telerik DevCraft Complete

Top 25 Product | Top 10 Publisher | Enterprise Partner

Quickly build modern, high-performance apps for any platform.

Publisher: Telerik | Category: Presentation Layer | ★★★★★

Get 1,250+ .NET and JavaScript components for building feature-rich and professionally designed Web, desktop and mobile apps in less time and with less effort.

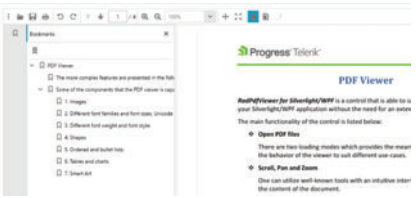


Native Blazor UI Components

Cut development time with highly accessible and responsive UI components including controls for data handling, UX and PDF viewing. Combine the components with a Design System Kit to help you produce consistent UI without hassle.

Comprehensive .NET MAUI Library

Controls to enable cross-platform development of native Windows, macOS, Android and iOS applications. Includes a wide range of charts, graph types and series that enable you to visualize data according to native platform standards.



Document Processing

Create and edit PDF, Word and Excel files in Web, desktop and cross-platform apps. Includes a set of libraries for manipulating commonly used document formats without relying on third party software like Microsoft Office and Adobe Acrobat.

The Most Powerful Software Developer Tools Collection for Any Platform & Technology

TX Text Control .NET for WPF Enterprise

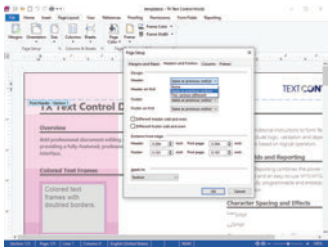
Top 50 Publisher

Enterprise Partner

Microsoft Word compatible WYSIWYG word processing.

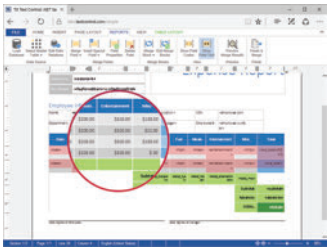
Publisher: Text Control | Category: Word Processing

TX Text Control .NET for WPF is a royalty-free, fully programmable rich edit control that offers developers a broad range of word processing features in a reusable component for Visual Studio.



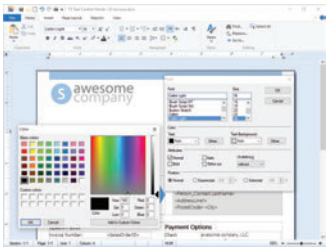
Headers and Footers

End-users can use the same header and footer throughout or change it for part of the document. For example, you can add a corporate logo to the first page header and then include the document file name in the header for subsequent pages.



Reporting and Mail Merge

Create mail merge and reports, master-detail and sub-reports using Microsoft Word compatible report templates. Data sources can be hierarchical such as related DataTables, DataSets or IEnumerable objects.



Formatting

Provides rich character formatting options, including font size, font family, character style and background colors. Flexible paragraph formatting such as indentation, tabs, variable line and paragraph spacing, and frames offer a variety of formatting opportunities.

TEXT CONTROL

Prices from $ 3,330.04

TEXT CONTROL

Document Processing Libraries

Integrate document editing, creation, collaboration and reporting into your applications.

www.componentsource.com/textcontrol

TX Text Control .NET Server for ASP.NET

Top 50 Publisher | Enterprise Partner

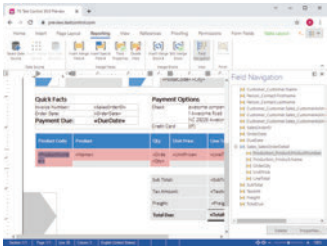
Add document processing to your ASP.NET Core, ASP.NET and Angular applications.

Publisher: Text Control | Category: Word Processing | ★★★★★

Integrate fully-featured document editing and viewing into your Web applications. Combine the power of a reporting tool and an easy-to-use WYSIWYG word processor, which is fully programmable and embeddable, in your ASP.NET application.

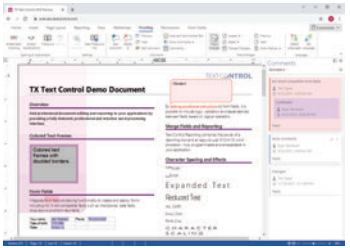
Electronic Signatures

Includes a complete set of tools that help to integrate electronic signature processes into business applications. You can create and request signatures, sign documents and validate executed PDF documents.



Reporting and Mail Merge

Easily integrate powerful flow-type layout reporting. The document editor can be used as a designer to create templates that can be merged using JSON or any IEnumerable object as a data source.



Document Editor

Add fully-featured, Microsoft Word compatible, document editing to your web applications. The editor provides consistent, pixel-perfect rendering to all your users independent of platform or browser.

TEXT CONTROL

Prices from $ 4,114.04

www.componentsource.com/tx-text-control-net-server

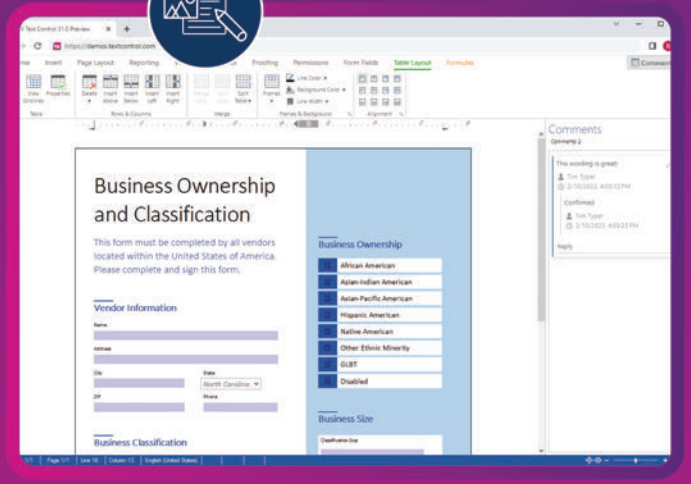
Integrate Leading Edge
Document Processing Libraries

TEXT CONTROL

Document Editing

Integrate fully-featured, MS Word compatible document editing.

Based on a unique WYSIWYG rendering technology, documents are rendered 100% accurate and consistent across browsers and devices.



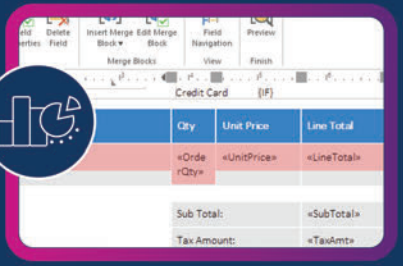
Electronic Signatures

Create and request electronic signatures and sign documents digitally in browser and mobile applications.

Mail Merge and Reporting

Combine powerful reporting features with an MS Word compatible document processor.

Merge hierarchical JSON data into merge fields and repeating blocks.



PDF Processing and Collaboration

Integrate PDF functionality into your business applications including forms processing, PDF/A support, embedded files and digital signatures.

Actipro WPF Studio

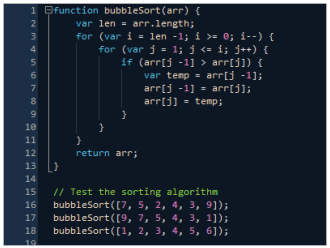
Top 50 Publisher

Corporate Partner

UI controls for building beautiful desktop apps.

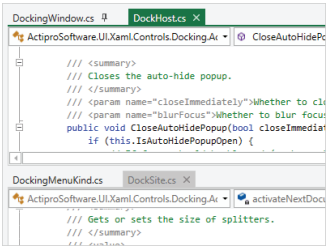
Publisher: Actipro Software | Category: Presentation Layer | ★★★★★

Includes advanced docking windows, MDI, charts, gauges, Ribbon, property grids, tree controls, folder/file browsers, robust editors, auto-completion, masked editing, and code editing.



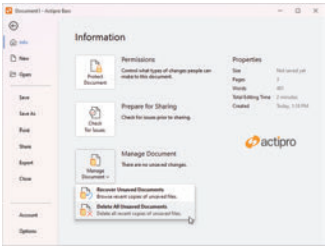
SyntaxEditor

A powerful text editing control built on top of an extensible text/parsing framework. While over 20 free sample languages are available (such as C#, VB, XML, and more), custom language definitions can also be developed and distributed with your applications.



Tabbed MDI

Each tab represents a document that can be reordered or moved between tab groups. Tabbed MDI documents can be floated into their own full-featured floating dock host.



Backstage Menu

The backstage or application menu is displayed by clicking the 'File' application button in the upper left side of the ribbon. It generally consists of various application-wide commands such as new, open, save file, and other functionality like printing.

actipro

Prices from $ 685.02

www.componentsource.com/actipro-wpf-studio

WPF User Interface Controls

Over 100 WPF controls and components are available in an assortment of products that improve your application's UI with rich features and functionality.

Office-Inspired UI

Duplicate the appearance and functionality of modern Office applications, harnessing a familiar interface for your end users.

Leading Code Editor

SyntaxEditor is the premier syntax-highlighting code editor control for .NET UI platforms, offering most of the features found in the Visual Studio editor.

IDEs With Ease

Many of our UI controls have been written with IDE-creation in mind. Powerful docking windows, MDI, property grids, shell controls, and editors are available.
