After system check is finished, click "Next".

After reading License Agreement, click "Accept" and go to the next step.

Select one or more web applications and click "Next".

Wait for installing, click "Next" for more deployment details.

License Management

Cascaded Lookup Column uses **Farm License Model** (each license is linked to SharePoint Farm ID). For more details about licensing models look at <u>http://www.artfulbits.com/Products/Licensing.aspx</u>.

You can get a Trial license or buy a product here: <u>http://www.artfulbits.com/SharePointSales/GetTrialLicense.aspx</u>.

After ArtfulBits License Manager is installed, go to the SharePoint Central Administration page:

SharePoint 2007	SharePoint 2010
Choose "Operations". Click on "ArtfulBits License Manager":	Click on "ArtfulBits License Manager":
Data Configuration	Application Management
Default database server Data retrieval service	Create site collections Manage service applications Manage content databases
ArtfulBits Solutions Configuration	Monitoring
(= ArthiBits License Manager	Check job status View Web Analytics reports
Content Deployment	Security
 Content deployment paths and jobs Content deployment artitings 	Nanage the farm administrators group Configure service accounts
# Check deployment of specific content	General Application Settings Configure send to connections Configure contant deployment paths and jobs Manage form templates
	ArtfulBits Solutions Configuration

This page shows all ArtfulBits products and their license statuses. Click on "Enter License" to add new license.

Activating / Deactivating Feature

Click "Site Actions" menu in the root site of one site collection, then click "Site Settings":

SharePoint 2007	SharePoint 2010
Site Actions *	Site Actions - 😒
Add a new library, list, or web page to this website.	Create a page you can customize.
Site Settings Manage site settings on this site.	Create a place to store and share documents.
	Create a site for a team or project.
	More Options Create other types of pages, lists, libraries, and sites.
	View All Site Content View all libraries and lists in this site.
	Edit in SharePoint Designer Create or edit lists, pages, and workflows, or adjust settings,
	Site Permissions Give people access to this site.
	Site Settings Access all settings for this site.

Click "Site collection features" link in Site Settings page:

In SharePoint Site collection feature list, activate Cascaded Lookup Column feature (if deactivated).

0	Artfulbites Carscaded Lookup Column Privites rev functionalities to default shareform toolugy, allows adding parent-child relationships to columns.	Centrole Active
	Arthalbits Decayawan Column Shena a conversation of angle or nulliple cares in a field in that style, allows to order test, mapes, gold, hyperinka, etc.	Activitie
1	Artholists Follow-Up Column Provides aniity to retain deadline date like Curlook follow-up feature, includes several flags with dates, such as Today, Tomorrow, The Week, Next Week or associate with custom dates.	Activate

Product Updating

Process of updating Cascaded Lookup Column is pretty straightforward - just download latest <u>installation</u> package and execute **Setup.exe** from it. After system checking, select an "Upgrade" option and then follow setup wizard instructions.

Uninstallation / Repairing

Execute **Setup.exe** from your installation package. On the Repair and Remove section, select Remove radio button and click "Next", the Cascaded Lookup Column will be uninstalled. Or select "Repair" - to repair the Cascaded Lookup Column.
