This is a legal agreement governing the use of the MetaDraw custom control (file BTIS.MetaDraw.dll) hereafter referred to as "**MetaDraw**" or "**MetaDraw Component**", as well as the use of any associated files distributed by Bennet-Tec Information Systems with METADRAW (such files including MetaDraw are hereafter collectively referred to as "MetaDraw Package". Terms of this agreement are binding upon any individual using MetaDraw, the employer of any such individual using MetaDraw under the terms of his/her employment, and any individual or organization purchasing the MetaDraw Package, and any software publisher distributing an application built using MetaDraw.

1. Ownership: MetaDraw and the MetaDraw Package are owned by Bennet-Tec Information Systems, Inc. and are protected by US copyright laws and international treaty provisions.   Neither the MetaDraw Package nor any accompanying documentation may be copied for distribution or resale, in whole or in part, without express permission from Bennet-Tec, except as stipulated below (see Distribution of Run Time Software).

2. Grant of License.   This license agreement permits a single individual, to use MetaDraw in creating compiled applications.   This license MAY NOT BE SHARED OR TRANSFERED.   A separate license must be purchased for each individual loading MetaDraw in a design time environment.   To validate the license, each individual must complete and return a copy of the registration /feedback form.

3. Restrictions on Use - Use of the MetaDraw for purposes of reverse engineering is expressly prohibited.   MetaDraw may not be used to create other custom controls or software components for use in a software design environment, except as such derived software is designed to require the purchase of a MetaDraw license from Bennet-Tec in order to be used in a design environment.   Applications created with MetaDraw may not be distributed prior to completion and return of the registration/feedback form and notification to Bennet-Tec of the distribution.

4. Distribution of Run Time software: Subject to restrictions identified above, the file "BTIS.MetaDraw.DLL" may be distributed without any additional fees or royalties with any compiled application, created with MetaDraw by a licensed individual, which does NOT itself duplicate the functionality of the control within a Design time environment.   Neither the help file, nor the design-time support files may be distributed under any circumstances - these files are for use solely by the licensed user of the MetaDraw control.   In distributing MetaDraw based applications, the appropriate DLL file should be copied into the end-user's system.   Documentation (on-line files or hard copy) distributed with MetaDraw based applications should clearly identify Bennet-Tec Information Systems, Inc. as the copyright owner for the MetaDraw control.   Application publishers must inform Bennet-Tec of the application title for any distributed application making use of the MetaDraw control, as well as the name(s) of the licensed individual(s) having built such application.

5. Limited Warranty: Bennet-Tec warrants that the software (MetaDraw) will perform as advertised and as provided for in the documentation for a period of ninety (90) days from the date of receipt.   Should the software (MetaDraw) fail to perform as advertised within such a period, Bennet-Tec will make every reasonable effort to satisfy any such claims, alternatively the customer may return the software (original disks and documentation) within this period with proof of purchase for a full refund of the purchase price (not to include shipping and handling charges).

6. Other Warranties: To the maximum extent permitted by law, Bennet-Tec disclaims all other warranties, expressed or implied.

7. No Liability for Consequential Damages: To the maximum extent permitted by law, Bennet-Tec will refuse to accept any liability for damages whatsoever arising out of the use or inability to use this product (MetaDraw), even if Bennet-Tec has been advised of the possibility of such damages.   Individuals, their employers, and application publishers making use of the MetaDraw control are fully responsible for testing applications built using the software and accept responsibility for any liability or damages incurred by the end-user of such applications resulting from the use or inability to use such applications.
