#### 2. END USER APPLICATION

The Application Software developed by Licensee must be an "End User Application." An "end user application" is a specific application program that is licensed to a person or firm for business or personal use and not with a view toward redistributing the application or any part of the application, and may be either an application that is used by Licensee internally, or an application that is commercially distributed to end users for their use. A user of an end user application may not modify or redistribute the application and may not copy it (other than for archival purposes). Licensee's license agreement covering the Application Software must contain restrictions prohibiting redistribution, modification and copying of the Application Software. The license rights hereunder do

not apply to development and deployment of software products such as ActiveX controls, plug-ins, authoring tools, development toolkits, compilers, operating systems and also software products where a significant function is to generate 'FBR' format files (as generated by the BB FlashBack SDK) and other file formats from 3rd party software applications not developed by the licensee, - such as Microsoft's 'Office' suite and component applications other than for the purpose of creating and then storing such files within a structured application for the archival and management of documents that is developed by the licensee and any other software not falling within the definition of an end user application. If Licensee wishes to develop a product outside the scope of this license, Licensee should contact BLUEBERRY'S OEM Sales department to see if a special license is available.

### 3. GRANT OF DUPLICATION AND DISTRIBUTION LICENCE

The Software includes certain runtime libraries and files intended for duplication and distribution by Licensee within the Application Software to the user of Application Software ("Redistributables"). The Redistributable components of the Software are those files specifically designated as being distributable in the "Installing the Libraries" section of the Online Help file, the terms of which are hereby incorporated herein by reference. Licensee should refer to the Documentation and specifically the "Online Help" file for additional information regarding the Redistributables. Under BLUEBERRY'S copyright, and subject to all the restrictions and conditions set forth in this Agreement and the Documentation, BLUEBERRY hereby grants Licensee (and only Licensee) a non-exclusive, non-transferable, worldwide license to reproduce exact copies of the Redistributables and include such files in the Application Software, and to deploy the Application Software internally and/or distribute the Application Software, directly or through customary distribution channels, to end users on a royalty free basis. If Licensee wishes to use an OEM who will modify the Application Software and copy it, Licensee must first obtain an OEM distribution license from BLUEBERRY or must require the OEM to obtain a license from BLUEBERRY. Duplication or Redistribution of the Application Software, or any portion thereof, by the users of the Application Software, without a separate written redistribution license from BLUEBERRY is prohibited. If the enclosed Software is packaged "For Evaluation Only," no right to copy and/or distribute the Redistributables is granted. No rights to copy or redistribute the Application Software are granted until such time as Licensee has properly registered the Software with BLUEBERRY and otherwise complied with this Agreement. Unless otherwise agreed in writing by BLUEBERRY, developer must distribute any Print drivers included using the BLUEBERRY Installation executable file provided for this purpose to ensure correct distribution and licensing adherence.
