

## **Terms and Conditions**

### **DeepCode AG**

**Kasinostrasse 10**

**8032 Zürich, Switzerland**

### **The Gist**

DeepCode AG ("DeepCode") operates the DeepCode services, which we hope you use. DeepCode and its services are only providing suggestions; despite our best efforts to provide as accurate suggestions as we can, DeepCode does not warrant, guarantee or take any responsibility for the quality, accuracy, usage or applicability of those suggestions. You own the source code that you provide to DeepCode to analyze. For paid plans, you'll be charged on a regular basis, according to the plan you've chosen. You can cancel anytime, but there are no refunds for any started periods before your request. The Terms of Service, the DeepCode Service, and our prices can change at any time. We'll warn you 30 days in advance of any price changes. We'll try to warn you about major changes to the Terms of Service or DeepCode, but we make no guarantees. That's the basic idea, but you must read through the entire Terms of Service below and agree with all the details before you use any of our site-services or self-managed services (whether or not you have signed up).

### **Reuse**

This document is an adaptation of the Heroku Terms of Service and CodeClimate, which is in turn an adaptation of the Google App Engine Terms of Service. The original work has been modified with permission under the Creative Commons Attribution Share-Alike License 4.0. Neither Heroku, Inc., CodeClimate nor Google, Inc. is connected with and they do not sponsor or endorse DeepCode or its use of the work. You're welcome to adapt and use this document for your own needs. If you make an improvement, we'd appreciate it if you would let us know so we can consider improving our own document.

### **Your Agreement with DeepCode**

Your use of the DeepCode Service is governed by this agreement (the "Terms"). The "Service" means the services DeepCode makes available include our websites (<https://deepcode.ai/>), our blog, our API, and any other software, sites, and services offered by DeepCode in connection to any of those. "Customer Source Code" means any source code you submit to DeepCode for the purpose of using the Service. "Content" means all content generated by DeepCode on your behalf (including metric data) and does not include Customer Source Code. In order to use the Service, You (the "Customer", "You", or "Your") must first agree to the Terms. You understand and agree that DeepCode will treat Your use of the Service as acceptance of the Terms from that point onwards. DeepCode may make changes to the Terms from time to time. You may reject the changes by terminating Your subscription. You understand and agree that if You use the Service after the date on which the Terms have changed, DeepCode will treat Your use as acceptance of the updated Terms. If you have any question about the Terms, please contact us. Subject to the terms hereof, DeepCode will provide User or Customer with reasonable support services and implementations assistance, through electronic mail or another reasonable mechanism, in accordance with DeepCode's standard practice.

### **Your DeepCode User**

You may not use the Service if You are a person barred from receiving the Service under the laws of any countries, including the country in which You are resident or from which You use the Service.

You may not use the service unless you are over the age of 13. You must be a human. Sign ups via automated methods are not permitted.

### **Use of the Service**

You must provide accurate and complete registration information any time You register to use the Service. You are responsible for the security of Your passwords and for any use of Your user. Your use of the Service must comply with all applicable laws, regulations and ordinances. You agree to not engage in any activity that interferes with or disrupts the Service. DeepCode reserves the right to enforce quotas and usage limits (to any resources, including the API) at its sole discretion, with or without notice, which may result in DeepCode disabling or throttling your usage of the Service for any amount of time. Shared users are forbidden unless you pay for all Git commit authors from the last 30 days. You are responsible for providing and maintaining any equipment and associated services needed to connect to, access or otherwise use the Services, including, without limitation, internet connection, hardware, software, and the like. You shall also be responsible for maintaining the security of the above, your account, passwords and files, and for all uses of your account with or without your knowledge or consent.

### **Service Policies and Privacy**

The Service shall be subject to the privacy policy for the Service available at [Privacy Policy](#), hereby expressly into the Terms of Service by reference. You agree to the use of Your data in accordance with DeepCode's privacy policies.

### **Fees for Use of the Service**

The Service may be provided to You without charge up with certain limits or for a certain "trial" period of time. Usage over this limit (or after the "trial" period) requires Your purchase of additional resources or services. For all purchased resources and services, our financial transaction provider will charge on a regular basis. Payments are non-refundable. There will be no refunds or credits for partial months of service, upgrade/downgrade refunds, or refunds for months unused with an open subscription. Charges are solely based on DeepCode's measurements of Your use of the Service, defined as the number of members of your DeepCode Organization, unless otherwise agreed to in writing. All fees are exclusive of all taxes, levies, or duties imposed by taxing authorities, and You shall be responsible for payment of all such taxes, levies, or duties. You acknowledge and agree that any credit card and related billing and payment information that You provide to DeepCode may be shared by DeepCode with companies who work on DeepCode's behalf, such as payment processors and/or credit agencies, solely for the purposes of checking credit, effecting payment to DeepCode and servicing Your subscription. DeepCode may change its fees and payment policies for the Service by notifying You at least thirty (30) days before the beginning of the billing cycle in which such change will take effect. Your subscription includes analysis of code authored by members of your Organization only. Code committed by other parties may be analyzed at our discretion. All discounted subscriptions are offered for a limited time only. The discounted subscription price is guaranteed for a maximum of 6 consecutive months and after this period the normal subscription price will apply. DeepCode reserves the right to cancel any discounted subscriptions at any time and without a specific reason, in such case, a 1-month notice will be communicated to the subscriber. DeepCode also reserves the right to extend discounted subscriptions without any warranties or further implied benefits or guarantees assumed from such extensions. DeepCode will NOT convert your subscription to a more expensive one unless you agree to that.

### **Cancellation and Termination**

You must cancel Your subscription via <https://deepcode.ai/>. An email or phone request to cancel Your subscription is not considered a cancellation. You will not receive any refunds if You cancel Your subscription. If You cancel the Service before the end of Your current paid up month, Your cancellation will take effect immediately and You will not be charged again. All of Customer Source Code and Content will, within a reasonable amount of time to be determined solely by DeepCode, be deleted from the Service upon cancellation. You agree that DeepCode, in its sole discretion and for any or no reason, may terminate or suspend Your subscription. You agree that any termination of Your access to the Service may be without prior notice, and You agree that DeepCode will not be liable to You or any third-party for such termination.

### **Customer Source Code**

DeepCode claims no ownership or control over any Customer Source Code. You retain copyright and any other rights You already hold in the Customer Source Code and You are responsible for protecting those rights, as appropriate. You agree to assume full responsibility for configuring the Service to allow appropriate access to any Customer Source Code provided to the Service. You understand that private projects will display Customer Source Code to You and any collaborators that you designate for that project. You retain sole responsibility for any collaborators or third-party services that you allow to view Customer Source Code and entrust them at your own risk. DeepCode is not responsible if you fail to configure, or misconfigure, your project, or allow others to access your DeepCode account, and inadvertently allow unauthorized parties to view any Customer Source Code.

### **Ideas and Feedback**

You may choose to or we may invite You to submit comments or ideas about the Service, including but not limited to ideas about improving the Service or our products ("Ideas"). By submitting any Idea, You agree that Your disclosure is unsolicited and without restriction and will not place DeepCode under any fiduciary or other obligation, and that we are free to use the Idea without any additional compensation to You, and/or to disclose the Idea on a non-confidential basis or otherwise to anyone.

### **Modification of the Service**

You acknowledge and agree that the Service may change from time to time without prior notice to You. Changes include, without limitation, changes to fee and payment policies, security patches, added or removed functionality, and other enhancements or restrictions. DeepCode shall not be liable to you or to any third-party for any modification, price change, suspension or discontinuance of the Service.

### **External Resources**

The Service may include hyperlinks to other websites or content or resources or email content. You acknowledge and agree that DeepCode is not responsible for the availability of any such external sites or resources, and does not endorse any advertising, products or other materials on or available from such websites or resources.

### **License from DeepCode and Restrictions**

All of the content available on or through the Service, including without limitation, text, photographs, graphics, logos, trade/service marks, and/or audiovisual content, but exdivssly excluding Customer Source Code, is owned and/or controlled by DeepCode, or other licensors or

Service users or public or open source content and is protected, as applicable, by copyright, trademark, trade dress, patent, and trade secret laws, other proprietary rights, and international treaties. You acknowledge that the Service and any underlying technology or software used in connection with the Service contain our proprietary information. Subject to and conditioned upon your compliance with these Terms of Service, we grant to you a personal, worldwide, royalty-free, non-assignable and non-exclusive license to use the software provided to You by DeepCode as part of the Service as provided to You by DeepCode. This license is for the sole purpose of enabling You to use and enjoy the benefit of the Service as provided by DeepCode, in the manner permitted by the Terms. You may not (and You may not permit anyone else to): (a) copy, modify, create a derivative work of, reverse engineer, decompile or otherwise attempt to extract the source code of the Service or any part thereof, unless this is expressly permitted or required by law, or unless You have been specifically told that You may do so by DeepCode, in writing (e.g., through an open source software license); or (b) attempt to disable or circumvent any security mechanisms used by the Service. Open source software licenses, where applicable, for components of the Service released under an open source license constitute separate written agreements. To the limited extent that the open source software licenses expressly supersede these Terms of Service, the open source licenses govern Your agreement with DeepCode for the use of the components of the Service released under an open source license. You may not use the Service in any manner that could damage, disable, overburden or impair our servers or networks, or interfere with any other users' use or enjoyment of the Service. You may not attempt to gain unauthorized access to any of the Service, member accounts, or computer systems or networks, through hacking, password mining or any other means. Without limiting anything else contained herein, you agree that you shall not (and you agree not to allow any third-party to): remove any notices of copyright, trademark or other proprietary rights contained in/on or accessible through the Service or in any content or other material obtained via the Service; use any robot, spider, website search/retrieval application, or other automated device, process or means to access, retrieve or index any portion of the Service; reformat or frame any portion of the web pages that are part of the Service; use the Service for commercial purposes not permitted under these Terms; create users by automated means or under false or fraudulent identities; attempt to defeat any security or verification measure relating to the Service; provide or use tracking or monitoring functionality in connection with the Service, including, without limitation, to identify other users' actions or activities; impersonate or attempt to impersonate DeepCode or any employee, contractor or associate of DeepCode, or any other person or entity; or collect or store personal data about other users in connection with the prohibited activities described in this paragraph.

### **Our Copyright Dispute Policy**

DeepCode respects the intellectual property of others and requires that our users do the same. It is our policy to terminate the membership of repeat infringers. If you believe that material or content residing on or accessible through the Service infringes a copyright, please send a notice of copyright infringement containing the following information to the Designated Copyright Agent listed below: identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works are covered by a single notification, a representative list of such works; identification of the claimed infringing material and information reasonably sufficient to permit us to locate the material on the DeepCode Service (providing the URL(s) of the claimed infringing material satisfies this requirement); information reasonably sufficient to permit us to contact you, such as an address, telephone number, and an email address; a statement by you that you have a good faith belief that the disputed use is not authorized by the copyright owner, its agent, or the law; a statement by you, made under penalty of perjury, that the above information in your notification is accurate and that

you are the copyright owner or are authorized to act on the copyright owner's behalf; and your physical or electronic signature. Our Designated Copyright Agent for notification of claimed infringement can be reached by email at: hello@deepcode.ai or at the following postal address: Attn: Designated Copyright Agent DeepCode Inc 77 Second Ave., #2A New York, NY 10003

### **Links & Services to/from Other Websites**

The Service may contain advertisements and/or links and/or services to/from other websites ("Third-Party Sites"). DeepCode does not endorse, sanction or verify the accuracy or ownership of the information contained in/on any Third-Party Site or any products or services advertised on Third-Party Sites. If you decide to leave the Site and navigate to Third-Party Sites, or install any software or download content from any such Third-Party Sites, you do so at your own risk. Once you access a Third-Party Site through a link on our Site, you may no longer be protected by these Terms of Service and you may be subject to the terms and conditions of such Third-Party Site. You should review the applicable policies, including privacy and data gathering practices, of any Third-Party Site to which you navigate from the Site, or relating to any software you use or install from a Third-Party Site. Concerns regarding a Third-Party Site should be directed to the Third-Party Site itself. DeepCode bears no responsibility for any action associated with any Third-Party Site.

### **Disclaimer of Warranties**

IF YOU ACCESS THE SERVICE, YOU DO SO AT YOUR OWN RISK. WE PROVIDE THE SERVICE "AS IS", "WITH ALL FAULTS" AND "AS AVAILABLE." WE MAKE NO EXPRESS OR IMPLIED WARRANTIES OR GUARANTEES ABOUT THE SERVICE. TO THE MAXIMUM EXTENT PERMITTED BY LAW, WE HEREBY DISCLAIM ALL SUCH WARRANTIES, INCLUDING ALL STATUTORY WARRANTIES, WITH RESPECT TO THE SERVICE, INCLUDING WITHOUT LIMITATION ANY WARRANTIES THAT THE SERVICE IS MERCHANTABILITY, OF SATISFACTORY QUALITY, ACCURATE, FIT FOR A PARTICULAR PURPOSE OR NEED, OR NON-INFRINGEMENT. WE DO NOT GUARANTEE THAT THE RESULTS THAT MAY BE OBTAINED FROM THE USE OF THE SERVICE WILL BE EFFECTIVE, RELIABLE OR ACCURATE OR WILL MEET YOUR REQUIREMENTS. WE DO NOT GUARANTEE THAT YOU WILL BE ABLE TO ACCESS OR USE THE SERVICE (EITHER DIRECTLY OR THROUGH THIRD-PARTY NETWORKS) AT TIMES OR LOCATIONS OF YOUR CHOOSING. WE ARE NOT RESPONSIBLE FOR THE ACCURACY, RELIABILITY, TIMELINESS OR COMPLETENESS OF INFORMATION PROVIDED BY ANY OTHER USERS OF THE SERVICE OR ANY OTHER DATA OR INFORMATION PROVIDED OR RECEIVED THROUGH THE SERVICE. EXCEPT AS EXPRESSLY SET FORTH HEREIN, DeepCode MAKES NO WARRANTIES ABOUT THE INFORMATION SYSTEMS, SOFTWARE AND FUNCTIONS MADE ACCESSIBLE BY OR THROUGH THE SERVICE OR ANY SECURITY ASSOCIATED WITH THE TRANSMISSION OF SENSITIVE INFORMATION. DeepCode DOES NOT WARRANT THAT THE SERVICE WILL OPERATE ERROR-FREE, THAT ERRORS IN THE SERVICE WILL BE FIXED, THAT LOSS OF DATA WILL NOT OCCUR, OR THAT THE SERVICE OR SOFTWARE ARE FREE OF COMPUTER VIRUSES, CONTAMINANTS OR OTHER HARMFUL ITEMS. UNDER NO CIRCUMSTANCES WILL DeepCode, ANY OF OUR AFFILIATES, DISTRIBUTORS, PARTNERS, LICENSORS, AND/OR ANY OF OUR OR THEIR DIRECTORS, OFFICERS, EMPLOYEES, CONSULTANTS, AGENTS, OR OTHER REPRESENTATIVES BE LIABLE FOR ANY LOSS OR DAMAGE CAUSED BY YOUR RELIANCE ON INFORMATION OBTAINED THROUGH THE SERVICE.

### **Limitations on Liability**

YOUR SOLE AND EXCLUSIVE REMEDY FOR ANY DISPUTE WITH US IS THE CANCELLATION OF YOUR REGISTRATION. IN NO EVENT SHALL OUR TOTAL CUMULATIVE LIABILITY TO YOU FOR ANY AND ALL CLAIMS RELATING TO OR ARISING OUT OF YOUR USE OF THE SERVICE, REGARDLESS OF THE FORM

OF ACTION, EXCEED THE GREATER OF: (A) THE TOTAL AMOUNT OF FEES, IF ANY, THAT YOU PAID TO UTILIZE THE SERVICE OR (B) ONE HUNDRED DOLLARS (\$100). IN NO EVENT SHALL WE BE LIABLE TO YOU (OR TO ANY THIRD-PARTY CLAIMING UNDER OR THROUGH YOU) FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES OR ANY BODILY INJURY, EMOTIONAL DISTRESS, DEATH OR ANY OTHER DAMAGES ARISING FROM YOUR USE OF OR INABILITY TO USE THE SERVICE, WHETHER ON-LINE OR OFF-LINE, OR OTHERWISE IN CONNECTION WITH THE SERVICE. THESE EXCLUSIONS APPLY TO ANY CLAIMS FOR LOST PROFITS, LOST DATA, LOSS OF GOODWILL OR BUSINESS REPUTATION, COST OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, ANY OTHER COMMERCIAL DAMAGES OR LOSSES, OR ANY PERSONAL INJURY OR PROPERTY DAMAGES, EVEN IF WE KNEW OR SHOULD HAVE KNOWN OF THE POSSIBILITY OF SUCH DAMAGES. BECAUSE SOME STATES OR JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR THE LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, IN SUCH STATES OR JURISDICTIONS, OUR LIABILITY SHALL BE LIMITED TO THE EXTENT PERMITTED BY LAW. For the avoidance of doubt, DeepCode and its services are only providing suggestions and DeepCode does not warrant, guarantee or take any responsibility for the quality, accuracy, usage or applicability of those suggestions.

### **Indemnification**

You agree to hold harmless and indemnify DeepCode, and its subsidiaries, affiliates, officers, agents, employees, advertisers, licensors, suppliers or partners (collectively "DeepCode and Partners") from and against any third-party claim arising from or in any way related to (a) Your breach of the Terms, (b) Your use of the Service, (c) Your violation of applicable laws, rules or regulations in connection with the Service, or (d) Your Customer Source Code, including any liability or expense arising from all claims, losses, damages (actual and consequential), suits, judgments, litigation costs and attorneys' fees, of every kind and nature. In such a case, DeepCode will provide You with written notice of such claim, suit or action.

### **Choice of Law and Dispute Resolution**

The Terms of Service shall be deemed to have been entered into and shall be construed and enforced in accordance with the substantive laws of Switzerland, excluding the United Nations Convention on Contracts for the International Sale of Goods dated 9 April 1980 (CISG), as amended from time to time. Any controversy, dispute or claim arising out of or related to the Terms of Service or the Service shall be resolved by the ordinary courts of the city of Zurich, Switzerland. Any and all disputes that you may have with DeepCode shall be resolved individually, without resort to any form of class action.

### **General Legal Terms**

The Terms constitute the whole legal agreement between You and DeepCode and govern Your use of the Service and completely replace any prior agreements between You and DeepCode in relation to the Service. If any part of the Terms of Service is held invalid or unenforceable, that portion shall be construed in a manner consistent with applicable law to reflect, as nearly as possible, the original intentions of the parties, and the remaining portions shall remain in full force and effect. The failure of DeepCode to exercise or enforce any right or provision of the Terms of Service shall not constitute a waiver of such right or provision. The failure of either party to exercise in any respect any right provided for herein shall not be deemed a waiver of any further rights hereunder. You agree that if DeepCode does not exercise or enforce any legal right or remedy which is contained in the Terms (or which DeepCode has the benefit of under any applicable law), this will not be taken to be a formal

waiver of DeepCode's rights and that those rights or remedies will still be available to DeepCode. DeepCode shall not be liable for failing or delaying performance of its obligations resulting from any condition beyond its reasonable control, including but not limited to, governmental action, acts of terrorism, earthquake, fire, flood or other acts of God, labor conditions, power failures, and Internet disturbances. We may assign this contract at any time to any parent, subsidiary, or any affiliated company, or as part of the sale to, merger with, or other transfer of our company to another entity.

## **Privacy Policy**

DeepCode services are operated and managed by DeepCode AG (hereinafter referred to as "DeepCode"), a Switzerland based corporation.

### **The Gist**

DeepCode will store some information about you as you use our site, we can share this information in an aggregated form only. We won't do anything evil with it. The git repository that you analyze is stored in a reputable Private Cloud Service (like Google Compute Engine), you retain all ownership of the code and DeepCode will not share it. Your payment details and transactions will be processed by a reputable 3rd party provider. They might store your private payment information, please refer to their policies here <https://stripe.com/ch/privacy>. We can also use cookies, but you can choose not to store these. That's the basic idea, but you must read through the entire Privacy Policy below and agree with all the details before you use any of our sites.

### **Reuse**

This Privacy Policy is based upon the Automattic Privacy Policy and CodeClimate Privacy Policy and is licensed under Creative Commons Attribution Share-Alike License 4.0. Basically, this means you can use it verbatim or edited, but you must release new versions under the same license and you have to credit Automattic somewhere (like this!). Automattic is not connected with and does not sponsor or endorse DeepCode or its use of the work. DeepCode offers services include our websites (<https://deepcode.ai/>), our blog, our API, and any other software, sites, and services offered by DeepCode in connection to any of those (taken together, the "Service"). It is DeepCode's policy to respect your privacy regarding any information we may collect while operating our websites.

### **Questions**

If you have question about this Privacy Policy or want to officially request, review, delete or anything else about your personal data, please contact us at [info@deepcode.com](mailto:info@deepcode.com) and we will work with you to identify and follow the appropriate process to satisfy your request.

### **Visitors**

Like most website operators, DeepCode collects non-personally-identifying information of the sort that web browsers and servers typically make available, such as the browser type, language divergence, referring site, and the date and time of each visitor request. DeepCode's purpose in collecting non-personally identifying information is to better understand how DeepCode's visitors use its website. From time to time, DeepCode may release non-personally-identifying information in the aggregate, e.g., by publishing a report on trends in the usage of its website. DeepCode also collects potentially personally-identifying information like Internet Protocol (IP) addresses. DeepCode does not use such information to identify its visitors, however, and does not disclose such information, other than under the same circumstances that it uses and discloses personally-

identifying information, as described below. We may also collect and use IP addresses to block users who violated our Terms of Service.

### **Gathering of Personally-Identifying Information**

Certain visitors to DeepCode's websites choose to interact with DeepCode in ways that require DeepCode to gather personally-identifying information. The amount and type of information that DeepCode gathers depend on the nature of the interaction. DeepCode collects such information only insofar as is necessary or appropriate to fulfill the purpose of the visitor's interaction with DeepCode. DeepCode does not disclose personally-identifying information other than as described below. And visitors can always refuse to supply personally-identifying information, with the caveat that it may prevent them from engaging in certain Service-related activities. Additionally, some interactions, such as posting a comment, may ask for optional personal information. For instance, when posting a comment, may provide a website that will be displayed along with a user's name when the comment is displayed. Supplying such personal information is completely optional and is only displayed for the benefit and the convenience of the user. Additionally, DeepCode uses Stripe, an American company, (<https://stripe.com>) to process and store payment/financial transaction with our Users and Customers. While DeepCode trusts Stripe and their reputation, DeepCode does not take any responsibility for the Stripe practices and thus we encourage our customers to review the T&C and Privacy Policies & Terms of Stripe directly (<https://stripe.com/ch/privacy>).

### **Aggregated Statistics**

DeepCode may collect statistics about the behavior of visitors to the Service. For instance, DeepCode may monitor the most popular parts of the <https://deepcode.ai/>. DeepCode may display this information publicly or provide it to others. However, DeepCode does not disclose personally-identifying information other than as described below.

### **Protection of Certain Personally-Identifying Information**

DeepCode discloses potentially personally-identifying and personally-identifying information only to those of its employees, contractors and affiliated organizations that (i) need to know that information in order to process it on DeepCode's behalf or to provide services available at DeepCode's websites, and (ii) that have agreed not to disclose it to others. Some of those employees, contractors and affiliated organizations may be located outside of your home country; by using the Service, you consent to the transfer of such information to them. DeepCode will not rent or sell potentially personally-identifying and personally-identifying information to anyone. Other than to its employees, contractors and affiliated organizations, as described above, DeepCode discloses potentially personally-identifying and personally-identifying information only when required to do so by law, or when DeepCode believes in good faith that disclosure is reasonably necessary to protect the property or rights of DeepCode, third parties or the public at large. If you are a registered user of the Service and have supplied your email address, DeepCode may occasionally send you an email to tell you about new features, solicit your feedback, or just keep you up to date with what's going on with DeepCode and our products. We primarily use our website and blog to communicate this type of information, so we expect to keep this type of email to a minimum. If you send us a request (for example via a support email or via one of our feedback mechanisms), we reserve the right to publish it in order to help us clarify or respond to your request or to help us support other users. DeepCode takes all measures reasonably necessary to protect against the unauthorized access, use, alteration or destruction of potentially personally-identifying and personally-identifying information.

## **Cookies**

A cookie is a string of information that a website stores on a visitor's computer, and that the visitor's browser provides to the Service each time the visitor returns. DeepCode uses cookies to help DeepCode identify and track visitors, their usage of DeepCode Service, and their Service access differences. DeepCode visitors who do not wish to have cookies placed on their computers should set their browsers to refuse cookies before using DeepCode's websites, with the drawback that certain features of DeepCode's websites may not function properly without the aid of cookies.

## **Data Storage**

DeepCode uses third-party vendors and hosting partners to provide the necessary hardware, software, networking, storage, and related technology required to run the Service. You understand that although you retain full rights to your data, it may be stored on third-party storage and transmitted through third-party networks.

## **Privacy Policy Changes**

Although most changes are likely to be minor, DeepCode may change its Privacy Policy from time to time, and in DeepCode's sole discretion. DeepCode encourages visitors to frequently check this page for any changes to its Privacy Policy. Your continued use of this site after any change in this Privacy Policy will constitute your acceptance of such change.
