13. Third party Components
The Software includes third party components licensed by InfoSoft for purpose of embedding within the Software. The terms of such license will apply in lieu of the terms of this Agreement, and InfoSoft hereby represents and warrants that the license granted to such Components will be no less broad than the license granted in this Agreement. The Components are provided "as is" by the third party licensors who disclaim all liabilities, damages, (even if they have been advised of the possibility of such damages), warranties, indemnities and other obligations of any kind, express or implied, with regard to the components. The components are excluded from any indemnity provided by InfoSoft in this license. Nothing in the foregoing affects any performance warranty provided by InfoSoft with regard to the Software as a whole.

A list of included Components and their respective licenses shall be provided upon request.

If any provision of this Agreement is to be held unenforceable, such holding will not affect the validity of the other provisions hereof.   Failure of a party to enforce any provision of this Agreement shall not constitute or be construed as a waiver of such provision or of the right to enforce such provision.

(c) Compliance with Export Laws.   Each party shall comply with the laws. Neither party shall export or re-export directly or indirectly (including via remote access) any part of the FusionExport Software to any country for which a license is required under the Export Laws without first obtaining a license.

(e) Complete Agreement.   This Agreement, including all Exhibits, constitutes the entire agreement between the parties with respect to the subject matter hereof, and supersedes and replaces all prior or contemporaneous understandings or agreements, written or oral, regarding such subject matter.   No amendment to or modification of this Agreement will be binding unless in writing and signed by a duly authorized representative of both parties.
