### **1. UTILITY OF THE SOFTWARE**

The Software is intended to be used by software developers and programmers as a development tool for adapting, configuring and producing code to integrate the Software with other work, software applications, or graphical user interfaces (GUI), within 32-bit or 64-bit Microsoft Windows®, or Apple macOS® and macOS® operating systems.

### **2. GRANT OF LICENSE RIGHTS**

#### **2.1 GRANT OF RIGHTS**

This license is granted on a “per developer” (individual developer using the Software for development purposes) basis as described in Section 2.2, 2.3 and 2.4. Each developer who desires to use the Software must hold a valid Nevron Open Vision for .NET Developer License. In consideration of your acceptance to be bound by the terms and conditions of this License Agreement, Nevron grants you the non-exclusive, non-transferable right to use the Software for the sole purpose of creating integration program code to aid in integrating the Software with other work, software applications, or graphical user interfaces you produce (“the Work”) and on one or more computers used for testing and evaluation purposes only, provided that:

- (i) you have registered this Software with Nevron;
- (ii) a separate Nevron Open Vision for .NET Developer License is purchased for each person working with the Software, who develops, manipulates, configures, adjusts or alters the program code or web content while integrating the Work with the Software;
- (iii) the Software is not the sole or primary component of the Work;
- (iv) you give proper acknowledgement of the copyright of Nevron;
- (v) the Work shall not substantially duplicate the capabilities of the Software or, in the reasonable opinion of Nevron, compete with, directly or indirectly with the Software or other Nevron Software products;
- (vi) you do not use the Software as or to create a product or service or utility which exposes the functionality of the Software to other users in such a way as to compete, directly or indirectly, with the Software or other Nevron Software products;
- (vii) notwithstanding anything herein contained, the Software must be a fully integrated part of your Work and for purposes of this License Agreement, the term “Work” means a software product that you license to end users in which you will integrate the Software in accordance with the terms of this License Agreement and that adds significant and primary functionality to the Software, and may include software that the licensee acquires from third parties;
- (viii) you do not use the Nevron name, logo or trademarks in marketing your application or the name, logo or trademarks of any Nevron licensor or supplier; and
- (ix) you agree to indemnify, defend and hold Nevron harmless from and against any claims or lawsuits, including reasonable attorney's and legal fees, that arise or result from the use or distribution of the Software or any Work.

You agree not to remove any copyright, trademark or patent notices contained in or on the Software. Your license rights under this License Agreement are conditional upon you not being engaged at any time in the manufacture, use, distribution or transfer of counterfeit, pirated or illegal software.

You must not use the Software in any application or situation where any failure of the Software or Work could lead directly to death, personal injury, or severe physical or environmental damage. Examples include using the Software for controlling the operation of:

- (i) equipment in any nuclear facilities;
- (ii) aircraft navigation, communications or flight control systems;
- (iii) air traffic control systems;
- (iv) mass transit systems;
- (v) medical equipment (but only in equipment with an FDA classification of 2 or 3, or an equivalent classification); or
- (vi) weapons systems.

You must not:

- (i) create derivative works of the Software in any manner that would cause the Software in whole or in part to become subject to any of the terms of an Excluded License; or
- (ii) distribute the Software (or derivative works thereof) in any manner that would cause them to become subject to any of the terms of an Excluded License. For purposes of this License Agreement, the term “Excluded License” means any license that requires as a condition of use, modification and/or distribution of software subject to the Excluded License, that such software or other software combined and/or distributed with such software be
  - (a) disclosed or distributed in source code form; or
  - (b) licensed for the purpose of making derivative works.

You may not rent, lease or lend the Software.

You shall not reverse engineer, decompile or disassemble the Software, except as otherwise specifically permitted by applicable law notwithstanding such a restriction.

Your rights to use the Software are conditional on your compliance with the terms of this License Agreement.

To the extent that any provision in this section is in conflict with any other term or condition in this Software License Agreement, this section shall supersede such other term(s) and condition(s) only with respect to the Pre-release or Beta Software, but only to the extent necessary to resolve the conflict.

If the Software is identified as Beta version Software (“Pre-release Software”), the following additional provisions apply:

You acknowledge that Nevron has not promised or guaranteed to you that Pre-release Software will be announced or made available to anyone in the future that Nevron has no express or implied obligation to you to announce or introduce the Pre-release Software, and that Nevron may not introduce a product similar to, or compatible with the Pre-release Software.

Accordingly, you acknowledge that any research or development that you perform regarding the Pre-release Software or any product associated with the Pre-release Software is done entirely at your own risk. During the term of this Software License Agreement, if requested by Nevron, you can provide feedback to Nevron regarding testing and use of the Pre-release Software, including error or bug reports. You may not sublicense, lease, loan, rent, distribute or otherwise transfer the Pre-release Software.

You agree that any copies of the Software will contain the same proprietary notices that appear on and in the Software. You will not copy all or a substantial part of the Software, except to the extent necessary to install the program in a single hard disk or other storage device and as provided herein or except in compliance with the grant of rights to you herein.

You may copy the Software solely for backup and archival purposes, provided that the original and each copy are kept in your possession and that your installation and use of the Software does not exceed that allowed in the “GRANT OF LICENSE RIGHTS” section above.

The software distributes “Google Cross Core” fonts (digitized data copyright (c) 2010 Google Corporation with reserved font Arimo, Tinos and Cousine.) distributed under the “SIL OPEN FONT LICENSE Version 1.1”.
