

## LICENSE AGREEMENT FOR DROPMASTER

This software is protected by copyright law and international copyright treaty. Therefore, you must treat this software just like a book, except that you may copy it onto a computer to be used and you may make archive copies of the software for the sole purpose of backing up our software and protecting your investment from loss. The software may be moved from one computer to another, so long as there is no possibility of it being used by more than one person at a time.

### ADDING USERS

You may add users by paying for a separate software package for each user you wish to add. You may also add users by purchasing a site-license, so long as the number of persons who are able to use the software at one time is not more than the number of authorized users specified in the package or license.

### TRANSFERRING THE SOFTWARE

You may transfer all of your rights to use the software to another person, provided that you transfer to that person all of the software, discs (if applicable), and documentation provided in this package (including this statement), and transfer or destroy all copies in any form. Remember, once you transfer the software, you no longer have any right to use it, and the person to whom it is transferred may use it only in accordance with the copyright law, international treaty, and this statement.

If you have purchased an upgrade version of the software, it constitutes a single product with the Raize Software product that you upgraded. For example, the upgrade and the software that you upgraded cannot both be available for use by two different people at the same time, and cannot be transferred separately, without written permission from Raize Software.

Except as provided in this statement, you may not transfer, rent, lease, lend, copy, modify, translate, sublicense, time-share, or electronically transmit or receive the software, media, or documentation.

### LIMITED WARRANTY

Raize Software, Inc. warrants the physical media (or electronic distribution file) and online help files provided by Raize Software to be free of defects in materials (if provided on disc) and workmanship for a period of sixty (60) days from the original purchase date. If Raize Software receives notification within the warranty period of defects in materials or workmanship, and determines that such notification is correct, Raize Software will replace the defective media or files.

The entire and exclusive liability and remedy for breach of this limited warranty shall be limited to replacement of defective media or documentation and shall not include or extend to any claim for or right to recover any other damages, including but not limited to, loss of profit, data, or use of the software or special, incidental or consequential damages, or other similar claims, even if Raize Software has been specifically advised of the possibility of such damages. In no event will Raize Software's liability for any damages to you or any other person ever exceed the lower of the list price or the actual price paid for the package or the license to use the software, regardless of the form of the claim.

RAIZE SOFTWARE, INC. SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES, REPRESENTATIONS, OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. ALL OTHER IMPLIED TERMS ARE EXCLUDED.

Specifically, Raize Software makes no representation or warranty that the software or documentation are "error-free," or meet any user's particular standards, requirements, or needs. In all events, any implied warranty, representation, condition, or other term is limited to the electronic distribution file(s) and online documentation and is limited to the 60-day duration of the limited warranty.

Raize Software is not responsible for, and does not make any representation, warranty, or condition concerning product, media, software, or documentation not manufactured or supplied by Raize Software, such as third-parties' programs that are designed using Raize Software software or which include Raize Software programs or files.
