

TOTAL NETWORK INVENTORY 3

END USER LICENSE AGREEMENT

This license agreement is a legal agreement between you the end user (either as an individual or an entity) and Softinventive Lab Inc., herein after referred to as Softinventive Lab. The software "Total Network Inventory 3" and any of its supporting documentation and associated hardware are herein after referred to as the product.

By installing or using the product, you indicate your complete and unconditional acceptance of these terms and conditions. If you do not agree to the terms and conditions of this agreement promptly remove the product and associated documentation from your computer.

If any provision of this agreement is found to be unlawful or void then that provision shall be severed from this agreement and will not affect the validity of the remaining provisions.

GENERAL

As part of our service, Softinventive Lab agrees to provide freely downloadable evaluation versions of this software. Softinventive Lab agrees to provide this service free of charge. You agree to use the service in accordance with the License Agreement.

Softinventive Lab may amend or modify this License Agreement at any time.

Information contained in the product is subject to change without notice and does not represent a commitment or contracted obligation on the part of Softinventive Lab.

EVALUATION LICENSE

This product is distributed as shareware. This license agreement grants you non-exclusive rights to use the product for an evaluation period of sixty (60) days from the date you install and run the product for the first time. During this period the product will have some functional limitations, namely: random substitution of some text with the words "TRIAL VERSION" during printing and exporting of the report, and limitation of the maximum number of scanned computers to 50 assets. On the sixty-first (61) day after you installed the product you must either register the product by means of purchasing a Commercial License from Softinventive Lab or remove all copies of the product in your possession, and any related documentation.

COMMERCIAL LICENSE

After you purchase a Commercial License from Softinventive Lab for this product, the limitations of the evaluation version are removed. The Commercial License grants you non-exclusive rights to install and

use a copy of this product (registering it with the obtained license key) to inventory the specified number of computers and network devices situated anywhere in the world.

The following types of licenses exist: licenses for internal use (25, 50, 100, 150, 250, 350, 500, 750, 1000, 1500, 2000 nodes and Unlimited license) and licenses for external use, i.e. for Managed Service Providers and IT Service Providers (MSP 100 nodes, MSP 500 nodes and MSP Unlimited license).

The licenses for internal use (non-MSP licenses) can be used to inventory computers and networks belonging to the company or organization they are registered to (including affiliated and subsidiary companies). The licenses for external use (MSP licenses) can be used to inventory computers and networks belonging both to the licensee and to its customers and clients. It is expressly forbidden to use the licenses for internal use (non-MSP licenses) for inventory and audits of computer networks belonging to third-party organizations.

All licenses can be used only by the person or the staff of the organization they are registered to (including affiliated and subsidiary companies). Non-MSP licenses can be also used by external staff that provides IT services to the licensee inside its computer networks.

The number of software installations with the same license key is not limited for any license. For non-MSP licenses, the total number of computers and network devices inventoried by all installations must not exceed the license number, i.e. the license must cover all computers and devices managed by all installations. For MSP licenses, the license number limits only the number of computers and devices managed in a single installation, but there is no limit on the total number of managed computers in multiple installations.

All mentioned types of licenses may include an optional feature: Software Asset Management (SAM). The present or absence of this feature does not influence any other license conditions.

Period of validity of the Commercial License is unlimited. This license includes time-unlimited free support, and time-limited free updates during one (1) year since the date of purchase of the license.

Any Commercial License is valid for an unlimited period of time for the following versions of this product: the version that was the latest on the date of purchase of the license, all previous versions, and all new versions that are released during one (1) year since the date of purchase. Using the versions that are released after one (1) year since the date of purchase requires a renewal of the license on the terms that are offered on Softinventive Lab's web-site at the time of such renewal. A renewal of the license extends the right to use the new versions of this product by one year starting from the date of renewing. Purchasing an upgrade (i.e. extending the number of nodes, switching to MSP license or adding the SAM

feature) extends the right to use the new versions of this product by one year starting from the date of purchase of the upgrade independently of the date of the purchase of the original license or its renewal.

You may make a single copy of the software only and no other part of the product in a machine readable form for backup use only.

This License Agreement (including the product) is not transferable. You may not lend, loan, lease, rent, sell or distribute the product (or copies) in any form, except for reselling, when the license key is registered immediately to the end-user company name. Also the license can be re-registered if the licensee company is taken over by another company.
