The Software may come with extra programs and features that are available for use only to registered users through the use of their registration code.

5. Once you have purchased one license of the Software, you may not download an evaluation version for the purpose of development, testing or normal use on another system. If you need to install the Software on another system, you must purchase an additional license.

If LICENSOR deems your usage abusive, you will be contacted and given the opportunity to address the situation. In the event that the abuse is not resolved in a period of 30 days, LICENSOR reserves the right to stop the service following a 30-day notice period to give you time to setup your own License Server, hosted on your own server. LICENSOR will setup a redirect for a period of 1 year, free of charge, to redirect your existing users to your new License Server.

Any assignment in violation of this section will be void. Failure to prosecute a party's rights will not constitute a waiver of any breach. This agreement has been written in the English language and you waive any rights you may have under the law of your country or province to have this agreement written in any other language.

DISCLAIMER OF WARRANTY

45.   This software and its accompanying written materials are provided by licensor "as is" and any express or implied warranties, including, but not limited to, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, are disclaimed.

46.   In no event shall licensor or its suppliers be liable for any direct, indirect, incidental, special, exemplary, or consequential damages (including, but not limited to, procurement of substitute goods or services; loss of use, data, savings, or profits; or business interruption) however caused and on any theory of liability, whether in contract, strict liability, or tort (including negligence or otherwise) arising in any way out of the use of this software, even if advised of the possibility of such damage.
