Visual XML Authoring

CSS-driven visual XML editing	●	●			●	●	★
Select and combine CSS styles to customize the look of the editor	●	●			●	●	★
Ready-to-use support for DITA, DocBook, XHTML, and TEI frameworks	●	●			●	●	★
Support for inserting, embedding, and playing multimedia objects	●	●			●	●	
Predefined framework-specific actions, schemas, stylesheets, and catalogs	●	●			●	●	★
Supports user defined actions and framework bundles	●	●			●	●	★
Support for various types of framework-specific tables	●	●			●	●	★
Define profiling attributes to mark content for multiple output renditions	●	●			●	●	★
Use profiling condition sets to filter content for various outputs	●	●			●	●	★
Apply colors and styles to mark profiled content	●	●			●	●	
Built-in and customized form controls simplify authoring	●	●			●	●	★
Built-in Image Map Editor to create hyperlinks in specific areas of an image	●	●			●	●	★

DITA Support

Complete DITA 1.3 and 1.2 support	●	●			●	●	★
DITA single-source publishing to produce a variety of output types	●	●			●	●	
Predefined DITA-specific toolbar and contextual menu actions	●	●			●	●	★
Special DITA Maps Manager to help you manage DITA maps	●	●			●	●	★
Wizard to create multiple topics at once	●	●			●	●	

<input type="checkbox"/> Hide common features <div>Quick filter</div>	 XML Editor		 XML Developer		 XML Author		 Web Author
	Enterprise	Professional Academic Personal	Enterprise	Professional	Enterprise	Professional	Professional
Operations to automatically convert between DITA topic types	●	●			●	●	
Locate and insert reusable content with DITA Reusable Components view	●	●			●	●	
Insert or embed multimedia objects for HTML and PDF output	●	●			●	●	
Support for DITA specializations and automatic integration	●	●			●	●	★
Collaboration							
Track changes in XML documents	●	●			●	●	★
Add review comments and reply to them	●	●			●	●	★
Review panel that presents track changes, comments, and highlighted text	●	●			●	●	★
Filter review items by the type, author's name, or date	●	●			●	●	★
Working with Modular XML Files							
Validate imported tree of modules in Master Files context	●	●	●	●	●	●	
Search and refactoring options for ID and IDREFS	●	●	●	●	●	●	
Display the Hierarchy or Dependencies of an XML Document	●	●	●	●	●	●	
XML Text Editor							
Simple text editor with familiar layout and actions	●	●	●	●	●	●	★
Visual syntax highlighting, indentation, and line numbers	●	●	●	●	●	●	★
Configure syntax highlighting colors for each type of document	●	●	●	●	●	●	
XML element annotations presented in tooltips and special views	●	●	●	●	●	●	
Tag folding to simplify document editing	●	●	●	●	●	●
