XML Editing Tools

Intelligent XML Editing

Intelligent schema-aware content completion	●	●	●	●	●	●	★
Auto tag completion based on the detected document structure	●	●	●	●	●	●	

<input type="checkbox"/> Hide common features <input type="text"/>	 XML Editor		 XML Developer		 XML Author		 Web Author
	Enterprise	Professional Academic Personal	Enterprise	Professional	Enterprise	Professional	Professional
Configurable XML syntax coloring for elements and attributes	●	●	●	●	●	●	
Works with any XML Schema processor	●	●	●	●	●	●	★
Works with any XSLT processor	●	●	●	●	●	●	

Visual XML Authoring

CSS-driven visual XML editing	●	●			●	●	★
Select and combine CSS styles to customize the look of the editor	●	●			●	●	★
Ready-to-use support for DITA, DocBook, XHTML, and TEI frameworks	●	●			●	●	★
Support for inserting, embedding, and playing multimedia objects	●	●			●	●	
Predefined framework-specific actions, schemas, stylesheets, and catalogs	●	●			●	●	★
Supports user defined actions and framework bundles	●	●			●	●	★
Support for various types of framework-specific tables	●	●			●	●	★
Define profiling attributes to mark content for multiple output renditions	●	●			●	●	★
Use profiling condition sets to filter content for various outputs	●	●			●	●	★
Apply colors and styles to mark profiled content	●	●			●	●	
Built-in and customized form controls simplify authoring	●	●			●	●	★
Built-in Image Map Editor to create hyperlinks in specific areas of an image	●	●			●	●	★

DITA Support

☐ Hide common features

	 XML Editor		 XML Developer		 XML Author		 Web Author
	Enterprise	Professional Academic Personal	Enterprise	Professional	Enterprise	Professional	Professional
Complete DITA 1.3 and 1.2 support	●	●			●	●	★
DITA single-source publishing to produce a variety of output types	●	●			●	●	
Predefined DITA-specific toolbar and contextual menu actions	●	●			●	●	★
Special DITA Maps Manager to help you manage DITA maps	●	●			●	●	★
Wizard to create multiple topics at once	●	●			●	●	
Operations to automatically convert between DITA topic types	●	●			●	●	
Locate and insert reusable content with DITA Reusable Components view	●	●			●	●	
Insert or embed multimedia objects for HTML and PDF output	●	●			●	●	
Support for DITA specializations and automatic integration	●	●			●	●	★

Collaboration

Track changes in XML documents	●	●			●	●	★
Add review comments and reply to them	●	●			●	●	★
Review panel that presents track changes, comments, and highlighted text	●	●			●	●	★
Filter review items by the type, author's name, or date	●	●			●	●	★

Working with Modular XML Files

Validate imported tree of modules in Master Files context	●	●	●	●	●	●	
Search and refactoring options for ID and IDREFS	●	●	●	●	●	●

Display the Hierarchy or Dependencies of an XML Document

XML Text Editor

Simple text editor with familiar layout and actions

Visual syntax highlighting, indentation, and line numbers

Configure syntax highlighting colors for each type of document

XML element annotations presented in tooltips and special views

Tag folding to simplify document editing

Bookmarks allow you to mark locations in a document

Various helper views, continuously synchronized with the main editor

XML Grid Editor

Convenient layout that groups similar elements in tables

Grid actions such as sort, insert, delete, rename

Drag and Drop and multiple selection support

Copy/Paste to and from spreadsheet applications (such as Excel)

Archive Support

Work with various archive types (OOXML, ODF, EPUB, ZIP, JAR, IDML)

Open files directly from archives for editing purposes

Validate files opened directly from an archive	●	●	●	●	●	●	★
Transform files directly from an archive	●	●	●	●	●	●	
Process archive files with XQuery	●	●	●	●	●	●	
Find/replace content in files located inside archives	●	●	●	●	●	●	
ANT Scripts							
Edit and validate ANT scripts	●	●	●	●			
Run ANT transformation scenarios	●	●	●	●	●	●	
XProc Scripts							
XProc transformation scenarios	●	●	●	●	●	●	
XProc script editor includes content completion and automatic validation	●	●	●	●			
XML-Aware Spell Checker							
Spelling errors highlighted as you type	●	●	●	●	●	●	★
Configurable personal dictionary	●	●	●	●	●	●	
Various change, ignore, and replace actions	●	●	●	●	●	●	★
Supports multiple language dialects	●	●	●	●	●	●	★
Add dictionaries for new languages	●	●	●	●	●	●	★
Suggestions for unrecognized words accessible from a pop-up menu	●	●	●	●	●	●	★

<input type="checkbox"/> Hide common features <input type="text"/>							
	XML Editor		XML Developer		XML Author		Web Author
	Enterprise	Professional Academic Personal	Enterprise	Professional	Enterprise	Professional	Professional
AutoCorrect feature to fix misspelled words	●	●	●	●	●	●	★

XML Formatting

Canonicalize XML files	●	●	●	●	●	●	
XML-Well Formedness Checker	●	●	●	●	●	●	★
Integrated back-mapping for error reporting	●	●	●	●	●	●	★
Format and indent (pretty print) XML files	●	●	●	●	●	●	

Integrated XML Validation

Built-in automatic validation as you type	●	●	●	●	●	●	★
Predefined manual validation scenarios	●	●	●	●	●	●	
Supports XML Schema, Relax NG, NVDL, DTD, and Schematron validations	●	●	●	●	●	●	★
Supports the W3C XInclude recommendation	●	●	●	●	●	●	★
Trace error messages to source document code	●	●	●	●	●	●	★
Link to the exact location in the XML Schema specification	🔗	🔗	🔗	🔗	🔗	🔗	
Integrated support for third-party XML parsers and validators	●	●	●	●	●	●	★

General XML Editing Support

Various common editing actions (copy/paste, undo/redo, etc.)	●	●	●	●	●	●	★
Support for many file-encoding formats (UTF-8, UTF-16, etc)	●	●	●	●	●	●	★
